CARAVAN SECURITY
Issued by the Garda National Crime Prevention Unit

ALARM
Get an alarm fitted if one is not already in place.

HITCH/WHEEL LOCK
Ensure a hitch lock and wheel clamps are in place (good quality) and that the caravan is locked to a secure point.

TRACKING
A tracking device will increase the chance of recovering the caravan if it is stolen.

PROPERTY
Keep valuables out of sight and remove when not in use.

COVER
Use a cover when not in use. This may deter thieves as pulling off a cover can be noisy and add to the time taken to steal the caravan.

WINDOWS & DOORS
Ensure windows and doors are locked.

LIGHTING
Park in a well-lit area. Keep a light on if leaving unattended overnight.

RECORD
Keep good records of all serial numbers, unique markings etc. Keep documents secure.

CRiS
Consider voluntarily registering your caravan with the Central Registration and Indentification Scheme (CRiS).

Publication designed by the Garda National Community Policing Unit. For further crime prevention advice please go to www.garda.ie.
