### **Foreword from the Divisional Officer, Galway Division**

The six strategic policing objectives for An Garda Síochána in 2011 are listed in the first page of this document. These objectives set our strategic priorities for the year ahead and have been drawn from An Garda Síochána Strategy Statement 2010 - 2012.

This document sets out how the management and staff of the Galway Division will advance these strategic objectives and contribute to national performance indicators through local action. We are, as always, looking forward to the co-operation of the public in our efforts at achieving our stated objectives. In this regard we also look forward to the continued assistance and co-operation of local authorities, the Health Service Executive, state agencies, volunteers agencies and the business community.

This interaction will be availed of to continuously identify the requirements of our community and their concerns and to find solutions, which enhance the service we provide.

A strong focus will continue to be maintained on anti-social behaviour and public disorder. We are dedicated to achieving a significant reduction in fatal and serious collisions on our roads. This will be achieved through the use of enforcement measures, education and the promotion of a partnership based approach.

The Garda and civilian staff of the Galway Division are committed to providing a quality, competent, helpful and efficient service to all our customers. I would welcome your views on how we can improve on the service level provided. I would like to thank all of those who made submissions and suggestions for this plan. There is a list of contacts on the last page of this document.
