3. **Traffic** - To reduce the incidence of fatal and serious injury collisions and improve traffic flow.
4. **Public Safety** - To ensure public safety by reducing the incidence of public disorder and anti-social behaviour.

6. **Ethnic and Cultural Diversity** - To build the capability of An Garda Síochána to fulfil the emerging policing needs of our diverse ethnic and multi-cultural communities.

**Foreword from Chief Superintendent Gerry Phillips, Divisional Officer.**

The priority for the Regional Traffic Division for 2006 is to reduce the number of fatal and serious collisions and improve traffic flow through enforcement, traffic management and education.

The continuous growth in road traffic volumes in the Dublin Metropolitan Region has created a major challenge in relation to Traffic Management and enforcement. The level of deaths and serious injuries on our roads remains high.

The policing Plan 2006 takes account of the public attitude survey, which has identified the need for higher visibility policing as one of the Public's main policing priorities. With this in mind Gardaí will be deployed at Collision Prone Locations and High Visibility Points to enforce the Road Traffic Regulations in particular the key Road Traffic Offences:- Speeding, Drink Driving, non wearing of Safety Belts, Overweight Heavy Goods Vehicles and Dangerous/Careless Driving.

In preparing the Policing Plan for 2006 we have undertaken a wide-ranging consultative process with our staff and external stakeholders with a view to identifying the policing priorities and enhance the service we provide.

The targets set out in our Policing Plan are challenging, but with your support and co-operation creating a safer environment and reducing deaths and serious injuries on our roads is achievable.

I would welcome your views on any aspect of Traffic Policing. You can make submissions via email to [chieft@iol.ie](mailto:chieft@iol.ie)
