

An Garda Síochána Eastern Region Policing Plan 2012

‘Working with our Communities’

Foreword

I am pleased to introduce the 2012 Annual Policing Plan for the Eastern Region. This Regional Plan outlines our strategic goals for the final year of the Strategy Statement 2010 – 2012, and includes the priorities determined for An Garda Síochána by the Minister for Justice and Equality under Section 20 of the Garda Síochána Act 2005.

The Strategy Statement 2010 – 2012 is based upon four core values, namely:

- **Honesty** - Being honest and ethical and adhering to the principles of fairness and justice
- **Accountability** - Accepting individual responsibility and ensuring public accountability
- **Respect** - Having respect for people, their Human Rights and their needs
- **Professionalism** - Providing a professional policing service to all communities

The Plan concentrates on delivering six main policing areas:

- Ensuring our Nation's Security
- Confronting Crime
- Effective Roads Policing
- Ensuring a Peaceful Community
- Working with Communities
- An Excellent Organisation

The priorities and concerns of our communities remain at the centre of this plan, and a community based/partnership approach is a high priority for An Garda Síochána within the Eastern Region. We will maintain our focus on the development of a highly professional organisation to ensure that members of the community receive an excellent policing service.

This plan outlines the manner in which we will maintain our commitment to our core activity of prevention and detection of crime. All of the resources available in the Eastern Region will be used effectively and efficiently towards meeting this overall objective. We will proactively confront crime in all its forms, through the use of intelligence and analysis, aiming to ensure that people feel safe in their homes and in their communities.

In relation to road safety, we will continue to work tirelessly to improve the behaviour of all road users, and deny the use of our roads for criminal activity, while remaining dedicated to achieving a significant reduction in the incidence of fatal and serious collisions on our roads.

All areas of Garda activity in the Eastern Region will be informed by a commitment to intelligence-led operations; high visibility patrolling; and by utilising all our available resources to the greatest effect to deliver the best possible outcomes.

As we implement this plan in 2012, we remain committed to delivering the highest standards of professional policing for the benefit of the community as a whole.

Assistant Commissioner
