Notice

An Garda Siochana are using Body Worn Cameras (BWCs) in the vicinity and confines of this Garda station. It should be noted if Body Worn Cameras are activated they record both audio and video and the data will be stored for a minimum of 31 days before being deleted. If the recorded BWC data is of evidential value, then the footage will be stored in line with Garda evidential policies.

A member of Garda personnel can operate BWCs for the following principal purposes: (a) the prevention, investigation, detection or prosecution of criminal offences; (b) safeguarding against, and the prevention of, threats to public security, including securing public safety and public order; (c) the protection of the security of the State; (d) the execution of criminal penalties.

The Garda Commissioner is the Data Controller for stored BWC footage, with functions delegated to the local Chief Superintendent for the purposes of this BWC proof of concept. More information on An Garda Síochána's approach to data protection is available on the Garda website: https://www.garda.ie/en/information-centre/data-protection/ including how data subjects can submit a subject access request for personal data concerning them.
