## Re: Freedom of Information Request FOI-000355-2019 Request Part-Granted

*Dear*

I refer to your request, dated and received on 29<sup>th</sup> August 2019 which you have made under the Freedom of Information Act 2014 (FOI Act) for records held by An Garda Síochána.

Part 1(n) of Schedule 1 of the FOI Act states that An Garda Síochána is listed as a partially included agency "*insofar as it relates to administrative records relating to human resources, or finance or procurement matters*". Therefore, only administrative records that relate to human resources, finance or procurement shall be considered.

Your request sought:

*Original Request:*

*Materials relating to the setting up of a protective services unit in Cork West garda division?*

*Clarified Request:*

*Can I please frame this request in terms of human resources, and finances allocated for it?*

I wish to inform you that I have decided to part-grant your request on the 25<sup>th</sup> September 2019.

The purpose of this letter is to explain that decision.

## 1. Findings, particulars and reasons for decision

Upon receipt, your request was forwarded to the Divisional Office in Cork West and a number of records have been identified in respect of same. These records contain information relating to human resources and finance matters. However, in addition to this type of information, the records also make reference to operational policing matters.

### Part 1(n) of Schedule 1

Part 1(n) of Schedule 1 of the FOI Act states that An Garda Síochána is listed as a partially included agency *"insofar as it relates to administrative records relating to human resources, or finance or procurement matters"*. Therefore, only administrative records that relate to human resources, finance or procurement shall be considered.

HR records refer to personal records of staff working within An Garda Síochána. They also relate to statistical information in respect of the organisation, e.g sick leave, discipline, retirements, etc. Financial records relate to the financial expenditure of the organisation and procurement records relate to the contracting of services and the tendering process associated with same.

A number of the records identified do not come within the ambit of this partially included agency as set out in Part 1(n) of Schedule 1 of the FOI Act. I am therefore refusing these records as they fall outside the scope of the FOI Act insofar as it pertains to An Garda Síochána. These redactions are set in the attached schedule of records.

### Section 2 – Interpretation of the Act

Under the FOI Act, records are released without any restriction as to how they may be used and thus, release under the FOI Act, is in effect, regarded as being released to the world at large. As a result, I am conscious of my obligations to retain personal information in a confidential and secure manner and prevent personal information from being released into the public domain unnecessarily. Section 2 of the FOI Act defines personal information as follows:

#### 2.(1) In this Act—

*"personal information" means information about an identifiable individual that, either—*

- (a) would, in the ordinary course of events, be known only to the individual or members of the family, or friends, of the individual, or*
- (b) is held by an FOI body on the understanding that it would be treated by that body as confidential,*

*and, without prejudice to the generality of the foregoing, includes –*

- (iii) information relating to the employment or employment history of the individual*

### Section 37 – Personal Information

Section 37(1) provides that a public body shall refuse to grant a request if access to the record concerned would involve the disclosure of personal information. As such, I am satisfied that the records listed for redaction in the enclosed schedule of records consist of personal information. Accordingly, I find that Section 37(1) of the Act applies to the records at issue. Section 37(1) of the FOI Act are as follows:

*37(1) Subject to this section, a head shall refuse to grant an FOI request if, in the opinion of the head, access to the record concerned would involve the disclosure of personal information (including personal information relating to a deceased individual)*

I am refusing to provide the information contained within the specific records because I believe that it is the personal information as per Section 37 of the FOI Act. The release of this information, which is specific to individual(s), is considered personal information.

As per Section 37 of the FOI Act, I have considered the public interest issues which arise in this case and have taken account of the following factors in favour of release:

- Ensuring openness and transparency of organisational functions to the greatest possible extent,
- The public interest in members of the public exercising their rights under the FOI Act,
- That there is more than just a transitory interest by the public in this information,
- The right to privacy is outweighed by the needs of the public.

In considering the public interest factors which favour withholding the records, I have taken account of the following:

- Allowing a public body to hold personal information without undue access by members of the public,
- The public interest is not best served by releasing these records,
- That the Organisation can conduct its business in a confidential manner,
- That there is a reasonable and implied expectation that sensitive personal information will remain confidential,
- That there is no overriding public interest that outweighs the individual's right to privacy.

Having balanced the factors both for and against the release of the information, I decided that the public interest in preserving the personal information and the reasonable expectation that information be maintained in a confidential manner by An Garda Síochána outweighs the public interest which would be served were the records released to you.

The PSU for Cork West has been approved but not yet established. A panel of Sergeants and Gardai have been selected for deployment when established but as yet remain deployed on their normal duty. As such there are no costs associated with the project at this point. The OPW are engaging with Garda Estate Management on costs associated with facility development and HRM at Garda HQ will have authority for deployment.

The request can perhaps be better addressed when the unit has been established or final costs from OPW have been received.

I have no records that can be disclosed as the unit does not yet exist.

Insp Joanne O'Brien will have responsibility for PSU when established. My role, to date has been in liaising with OPW and Garda Estate Management on identifying potential facilities.

Chief Superintendent D. Daly,  
Garda National Protective Services Bureau  
Garda Headquarters,  
Phoenix Park

**Re: Deployment of Garda Members to Cork West Protective Services Unit, Dunmanway.**

I refer to the above and further to our recent discussion.

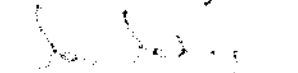

Sanction has been obtained from Estate Management for Dunmanway Garda Station to be altered to suit the requirements of the Protective Services Unit for Cork West Division. The work will be carried over a 10 weeks period, with a projected completion date of December 1<sup>st</sup>, 2019.

The current panel resulting from recent PSU competition consists of two members of Sergeant rank, ten members of Garda rank along with one reserve member of Sergeant rank and five reserve members of Garda rank.

I have previously outlined to Assistant Commissioner A. McMahon, Southern Region, that in order to implement and assign members to a Protective Services Unit immediate replacements are necessary in order to meet minimum operational requirements. Assistant Commissioner McMahon responded that she is not in a position to facilitate my request due to insufficient resources.

Forwarded for your attention,

  
Chief Superintendent  
Con Cadogan

Chief Superintendent Cork West

I refer to previous discussions regarding the refurbishment of Dunmanway Garda Station for the Divisional PSU and advise that I have received an estimated cost of the works at Dunmanway from the OPW on my return from leave.

In this regard, the OPW has advised that it has an estimated cost for the contract of €167,000 including VAT. The OPW advises that the total budget, including design and other professional fees, should be around €200,000. On the basis of previous experience in dealing with such matters, the cost is likely to exceed €200k.

The cost projected by the OPW is now significantly higher than the initial estimate for these works and is a cause of concern in terms of affordability and value for money.

In view of the impending amalgamation of the Cork West/North Divisions, I have a concern in relation to committing €200k + to the upgrade of Dunmanway Garda Station when a decision will have to be made as to the optimum future location for the PSU for the new Cork West/North Division.

From our visit to Dunmanway Garda Station earlier in the year, I believe that there is capacity in the existing Station to accommodate additional personnel for the PSU with minimal work and would be glad of your views on the merit of expending €200k on the refurbishment of Dunmanway

### Resource Capability

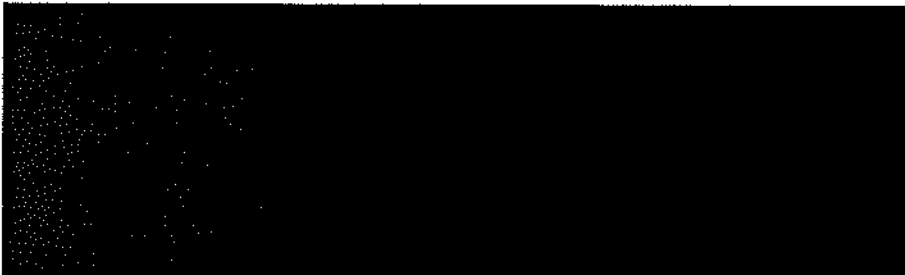

Based on the evaluation of the Phase I DPSU's, the minimum strength of each PSU has been set at 1 Inspector, 2 D/Sergeants, 10 D/Gardai.

Where a Divisional officer believes a minimum strength unit is insufficient for their requirement an additional business case must be submitted supporting the case for additional resources. Vacancies will be filled from a competition held in each Division. At this point in time, that completion does not include the Inspector, which will be dealt with separately by HRM.

### Accommodation

There is a requirement to identify suitable office space to accommodate a minimum strength DPSU. In the current climate of financial constraint within An Garda Síochána, refurbishment of offices will most likely not be realised in the timeframe allocated for establishing the remainder of Phase II DPSU's. It is therefore imperative that in order for a Division to be considered for the next Phase, suitable accommodation must be in place prior to any selection process being undertaken.

When submitting your report please ensure you provide information on the following:

- Number of personnel envisioned for the unit (minimum 2 Sergeants and 10 Gardai)
  - Location of Accommodation (if multiple sites please stipulate)
- 

Members of the DPSU support team, in GNPSB, are available to meet and discuss with you any issues you feel need to be addressed.

Please provide the requested information as soon as possible in order to ensure that this complex and detailed process can begin.

## Re: Setting up of Divisional Protective services Unit, Cork West Division

With reference to above,

I wish to acknowledge your correspondence and want to outline that I am delighted that Cork West Division is being considered for a Protective Services unit in early 2019. I wish to confirm that this Division is at an advanced stage in progressing towards the capacity for this unit and I will outline the readiness for same in this report.

### Resource Capability

I note that the minimum capability for a Divisional unit is 1 Inspector, 2 D/Sgts and 10 D/Gardaí. [REDACTED]

[REDACTED] I have examined [REDACTED] in this Division and have previously submitted a business case indicating that the Protective Services Unit in Cork West will require the minimum strength of 1 Inspector, 2 Detective Sergeants and 10 Detective Gardaí. I believe that we have the required personnel on the frontline who will be applying for the positions in the Protective services unit. I also believe that these members who have already expressed an interest in this unit have the expertise and the ability to conduct the investigative work required in a PSU.

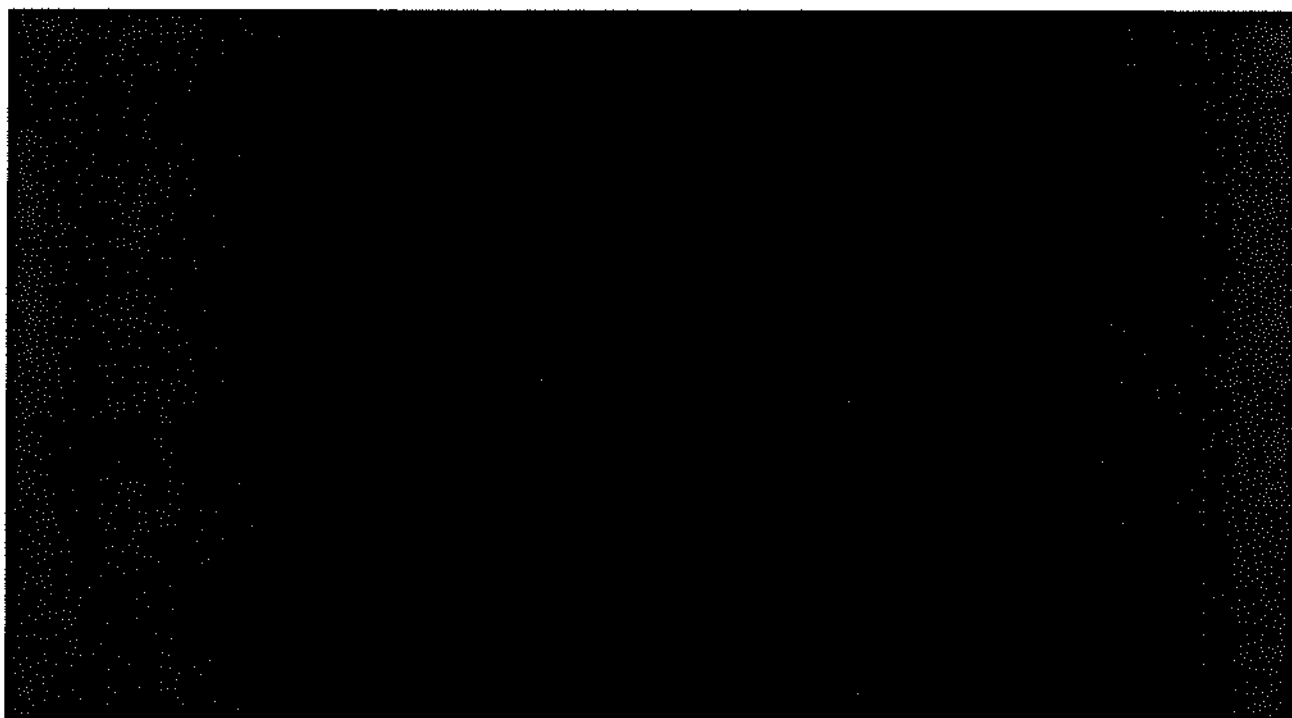

### Accommodation

On Tuesday 30.1.19 I met with Mr Sean Murphy and Mr Stephen Byrnes from Estate Management at Dunmanway Garda Station. This station has been identified as a suitable location to set up the Protective services unit. We carried out a site inspection and looked at the feasibility of setting up the unit there. [REDACTED]

[REDACTED] There are a number of offices at Dunmanway Garda Station which are not being utilised by the existing station party. The station was renovated 10 years ago and is of a high standard. There are a number of cosmetic changes to be made, however on today's date I met with Mr John McCann of OPW who has agreed to these changes and in addition to this Mr Sean Murphy has committed to provide the finance for these changes within the

building from the Garda Housing budget. It is envisaged that this work can be carried out quickly and accommodation will be ready for a DPSU by May 2019. In addition to the Gardai for this unit, 2 Clerical Officers will also be required for administration duties.

**Re: Proposal for Cork West Divisional Protective Services Unit**

As you are aware as part of An Garda Síochána's Modernisation & Renewal Programme 2016-2021 it is anticipated that Protective Services Units will be established in each Garda Division by early 2018.

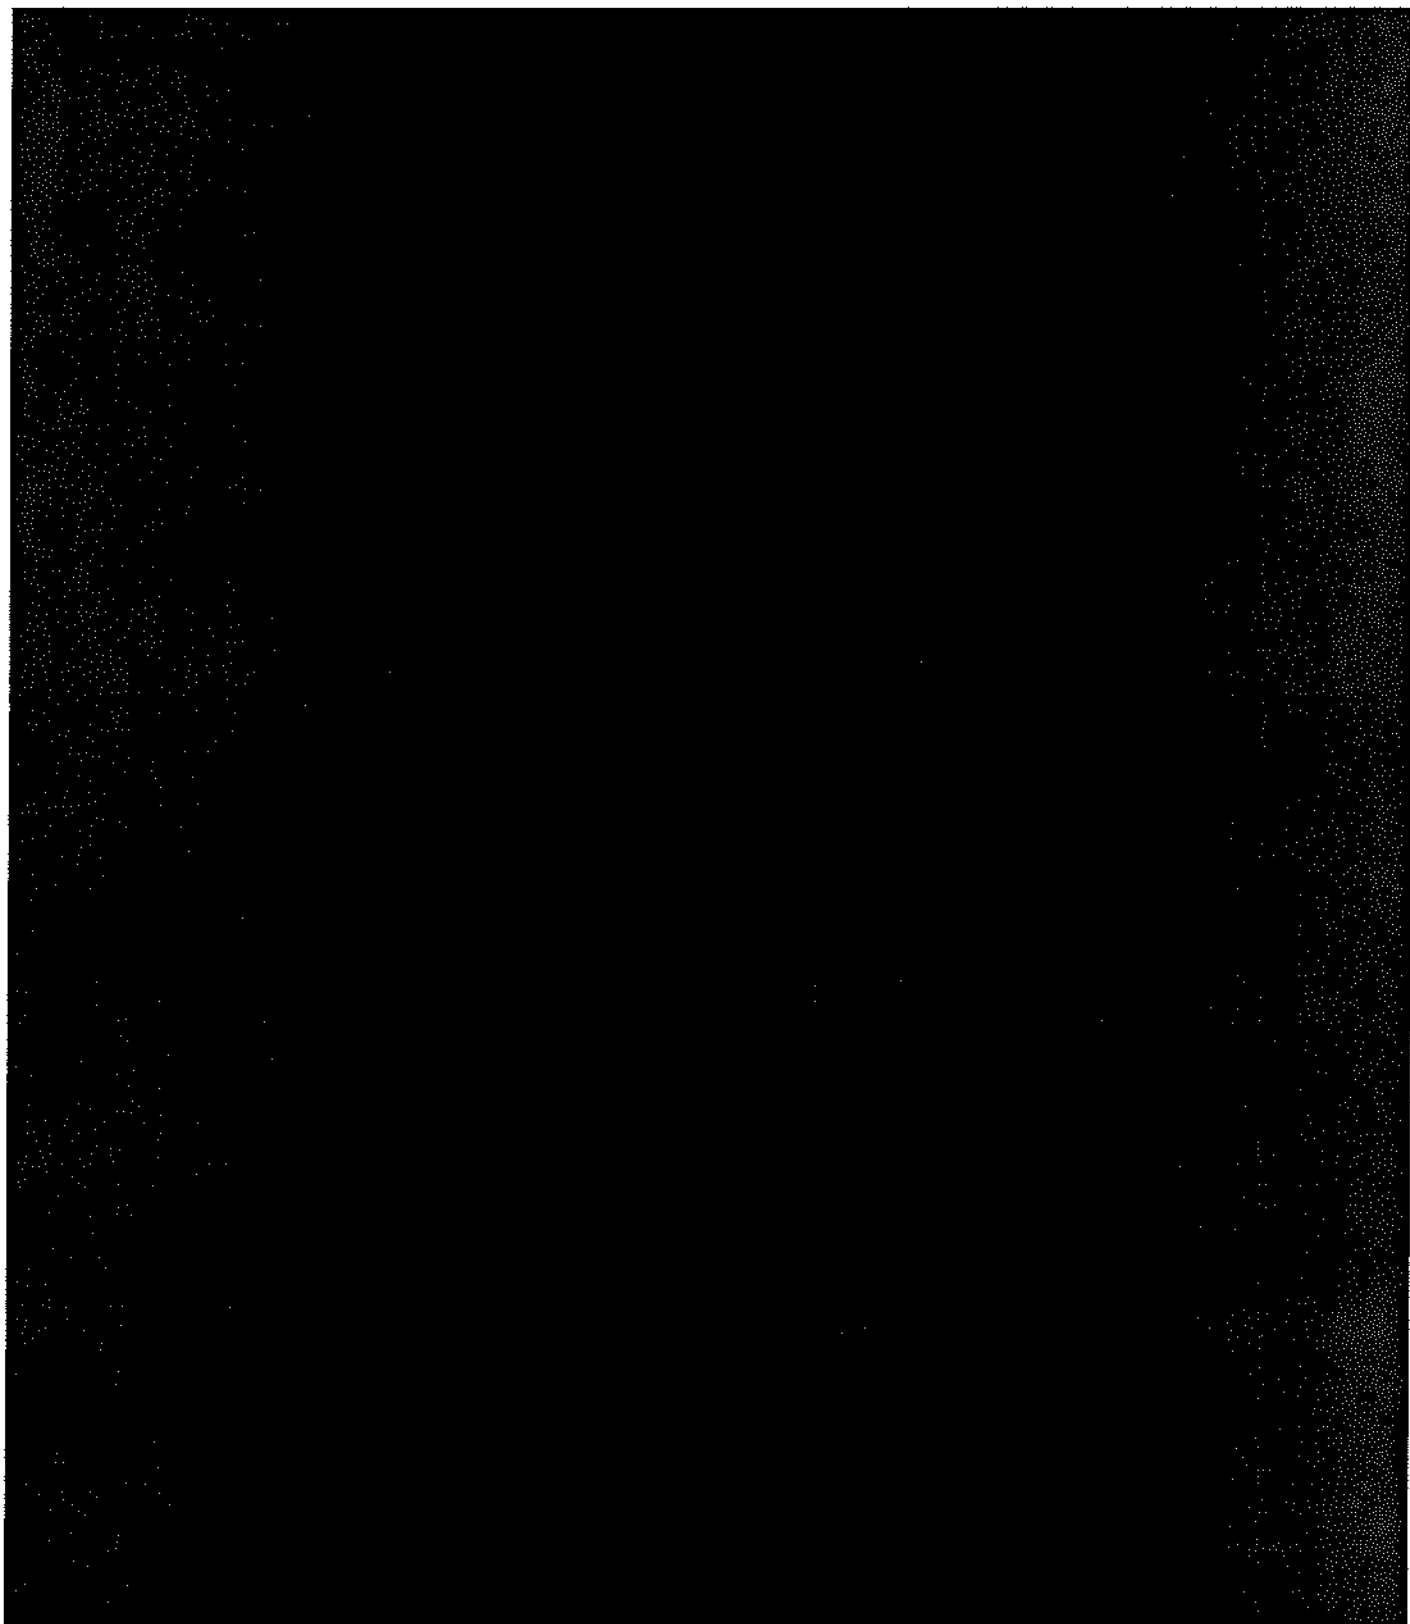

The Modernisation and Renewal Programme sets out the need for PSU in each Garda Division;

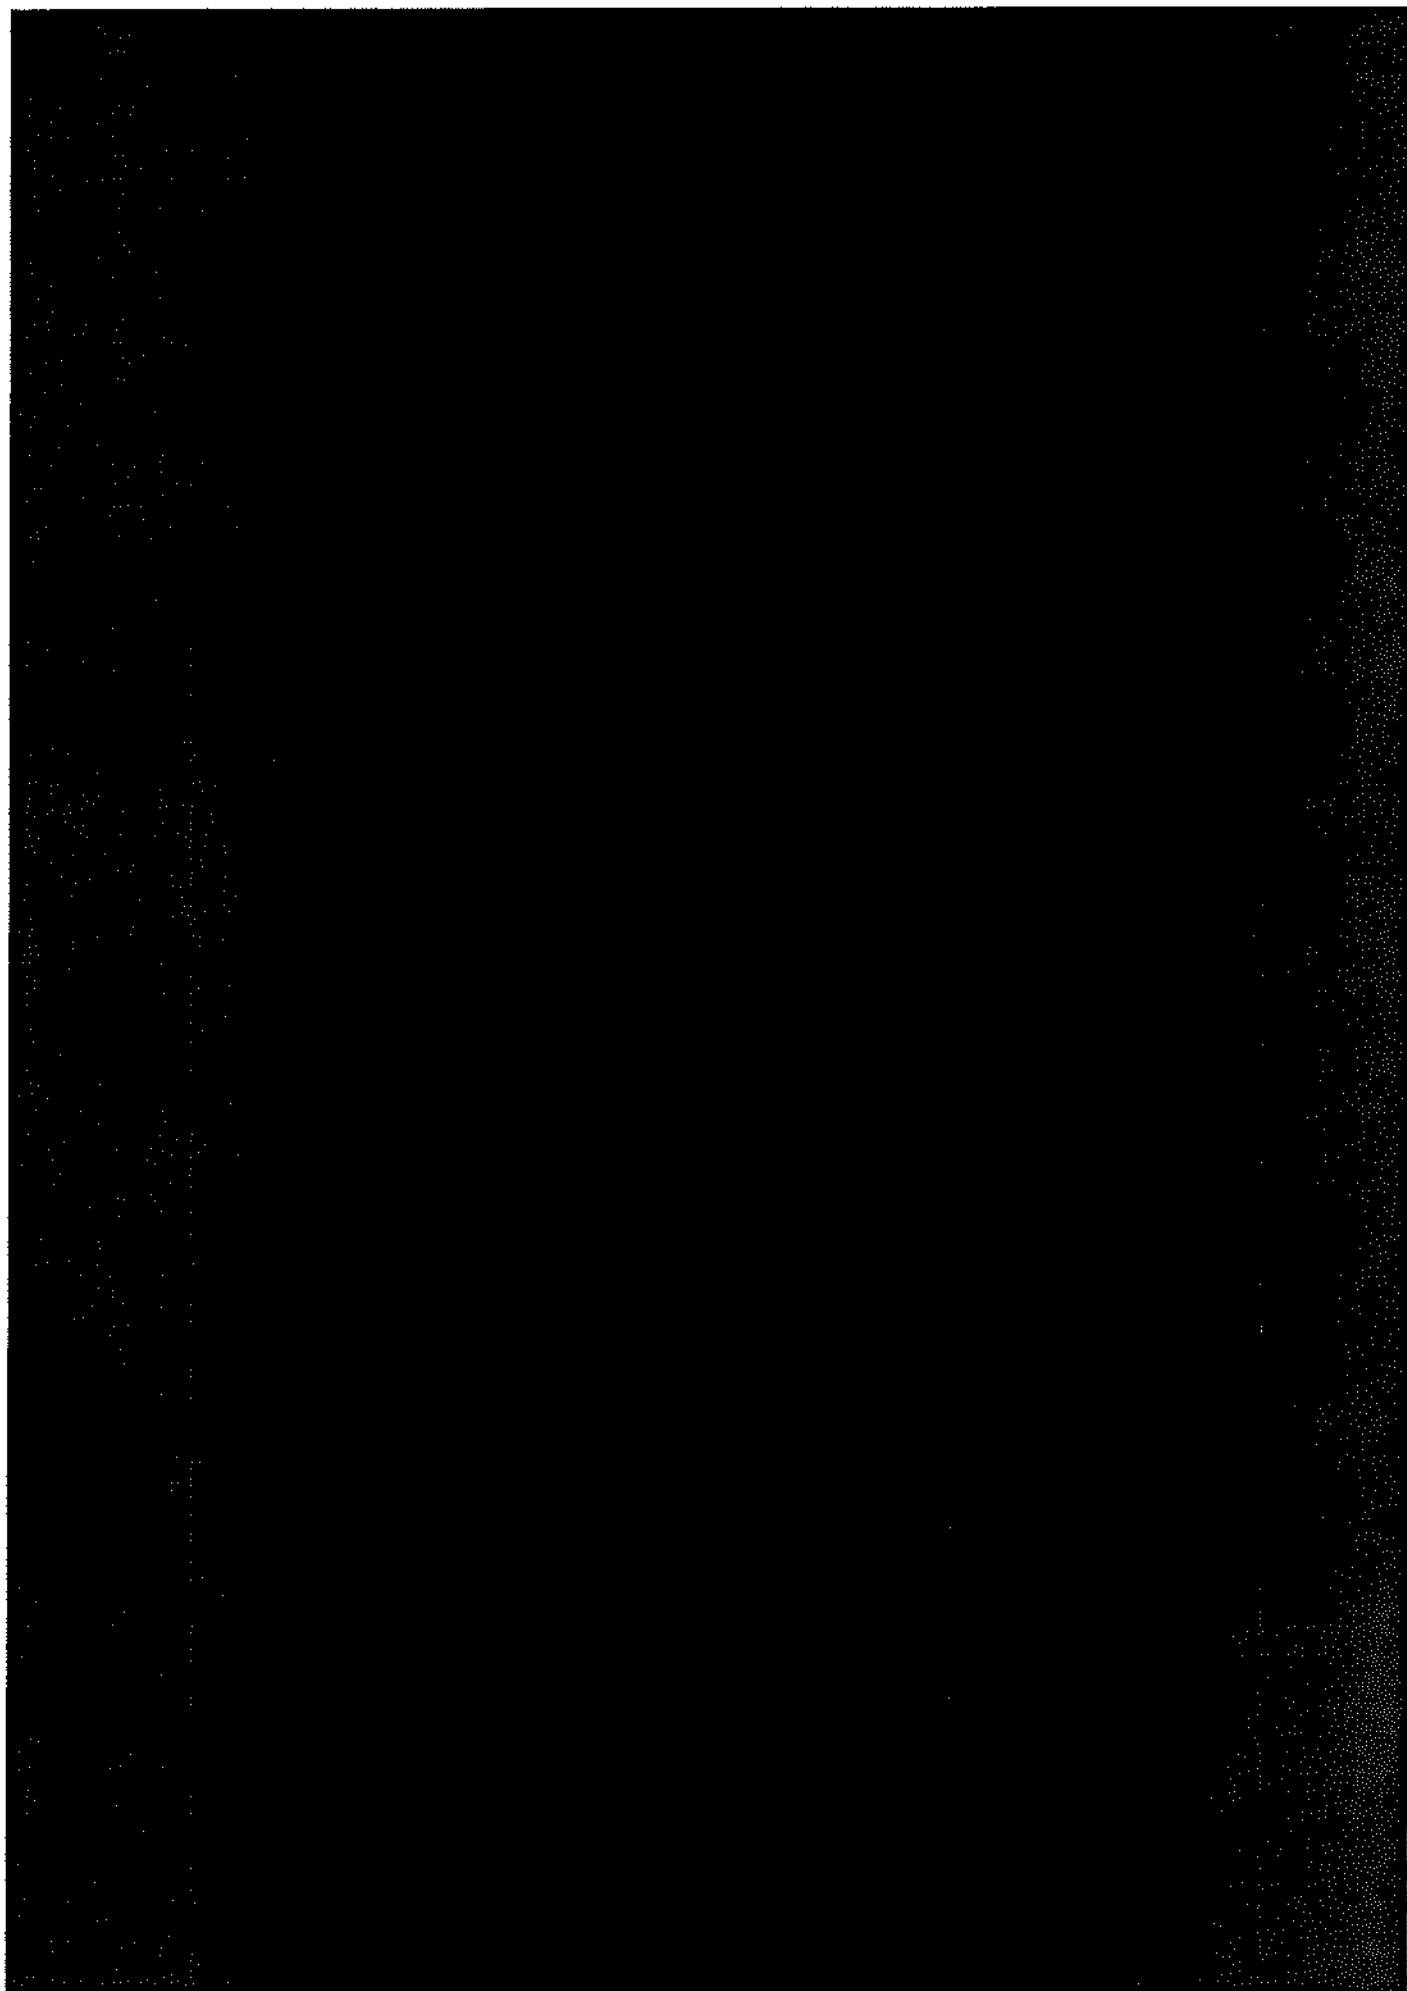

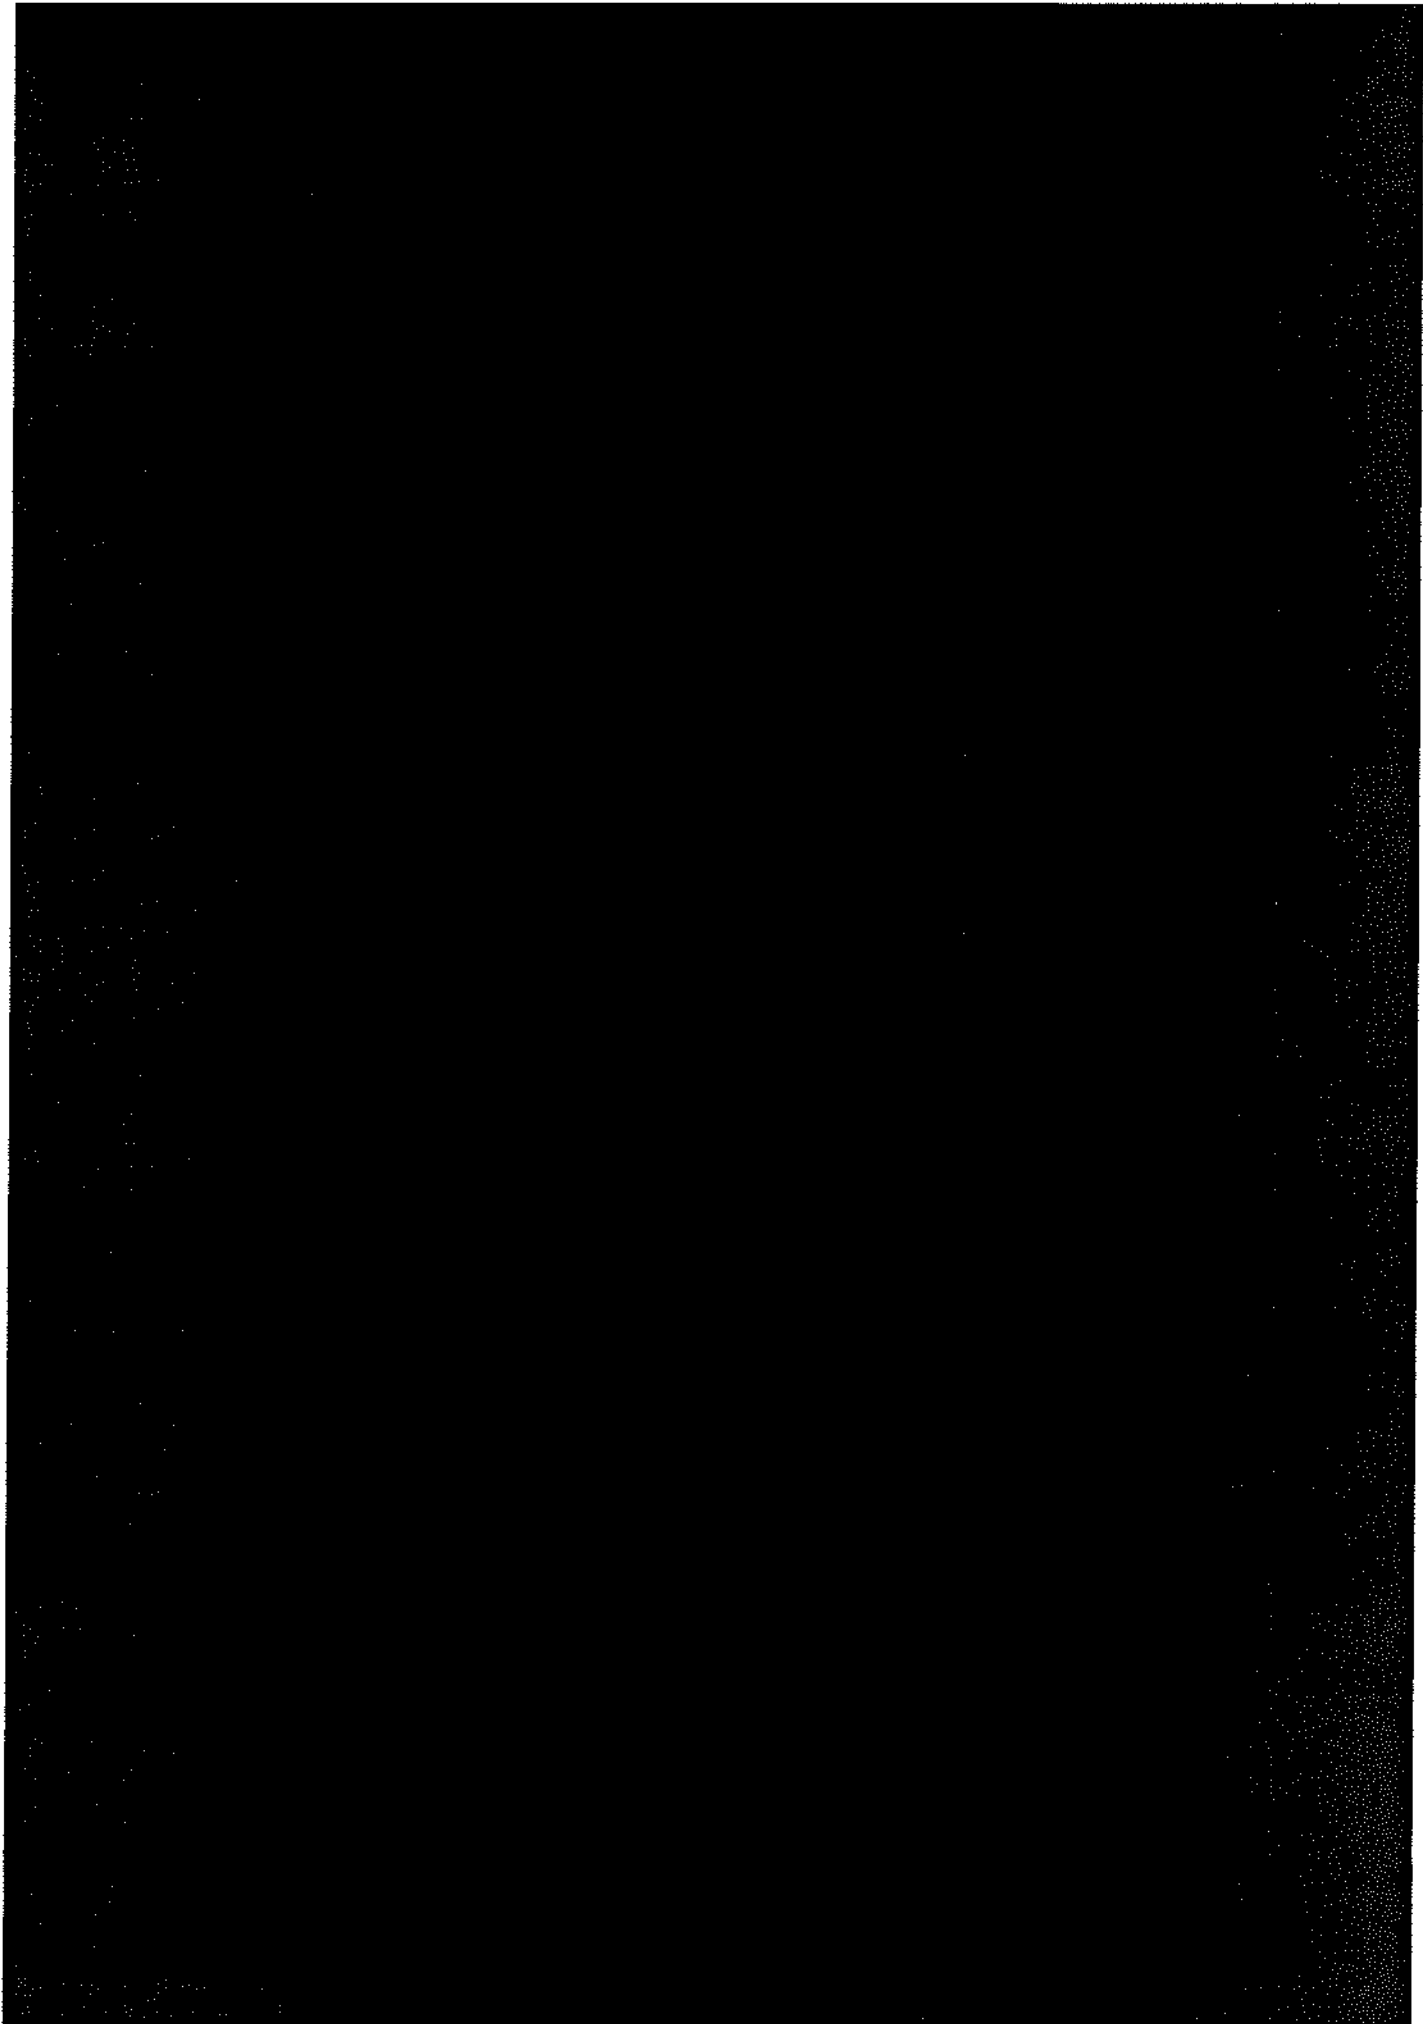

- To comply with recommendations from An Garda Síochána Policing Plan 2016, the Garda Inspectorate Report Number 7 and Number 10 as well as compliance with EU Victims Directive 12/29/11.

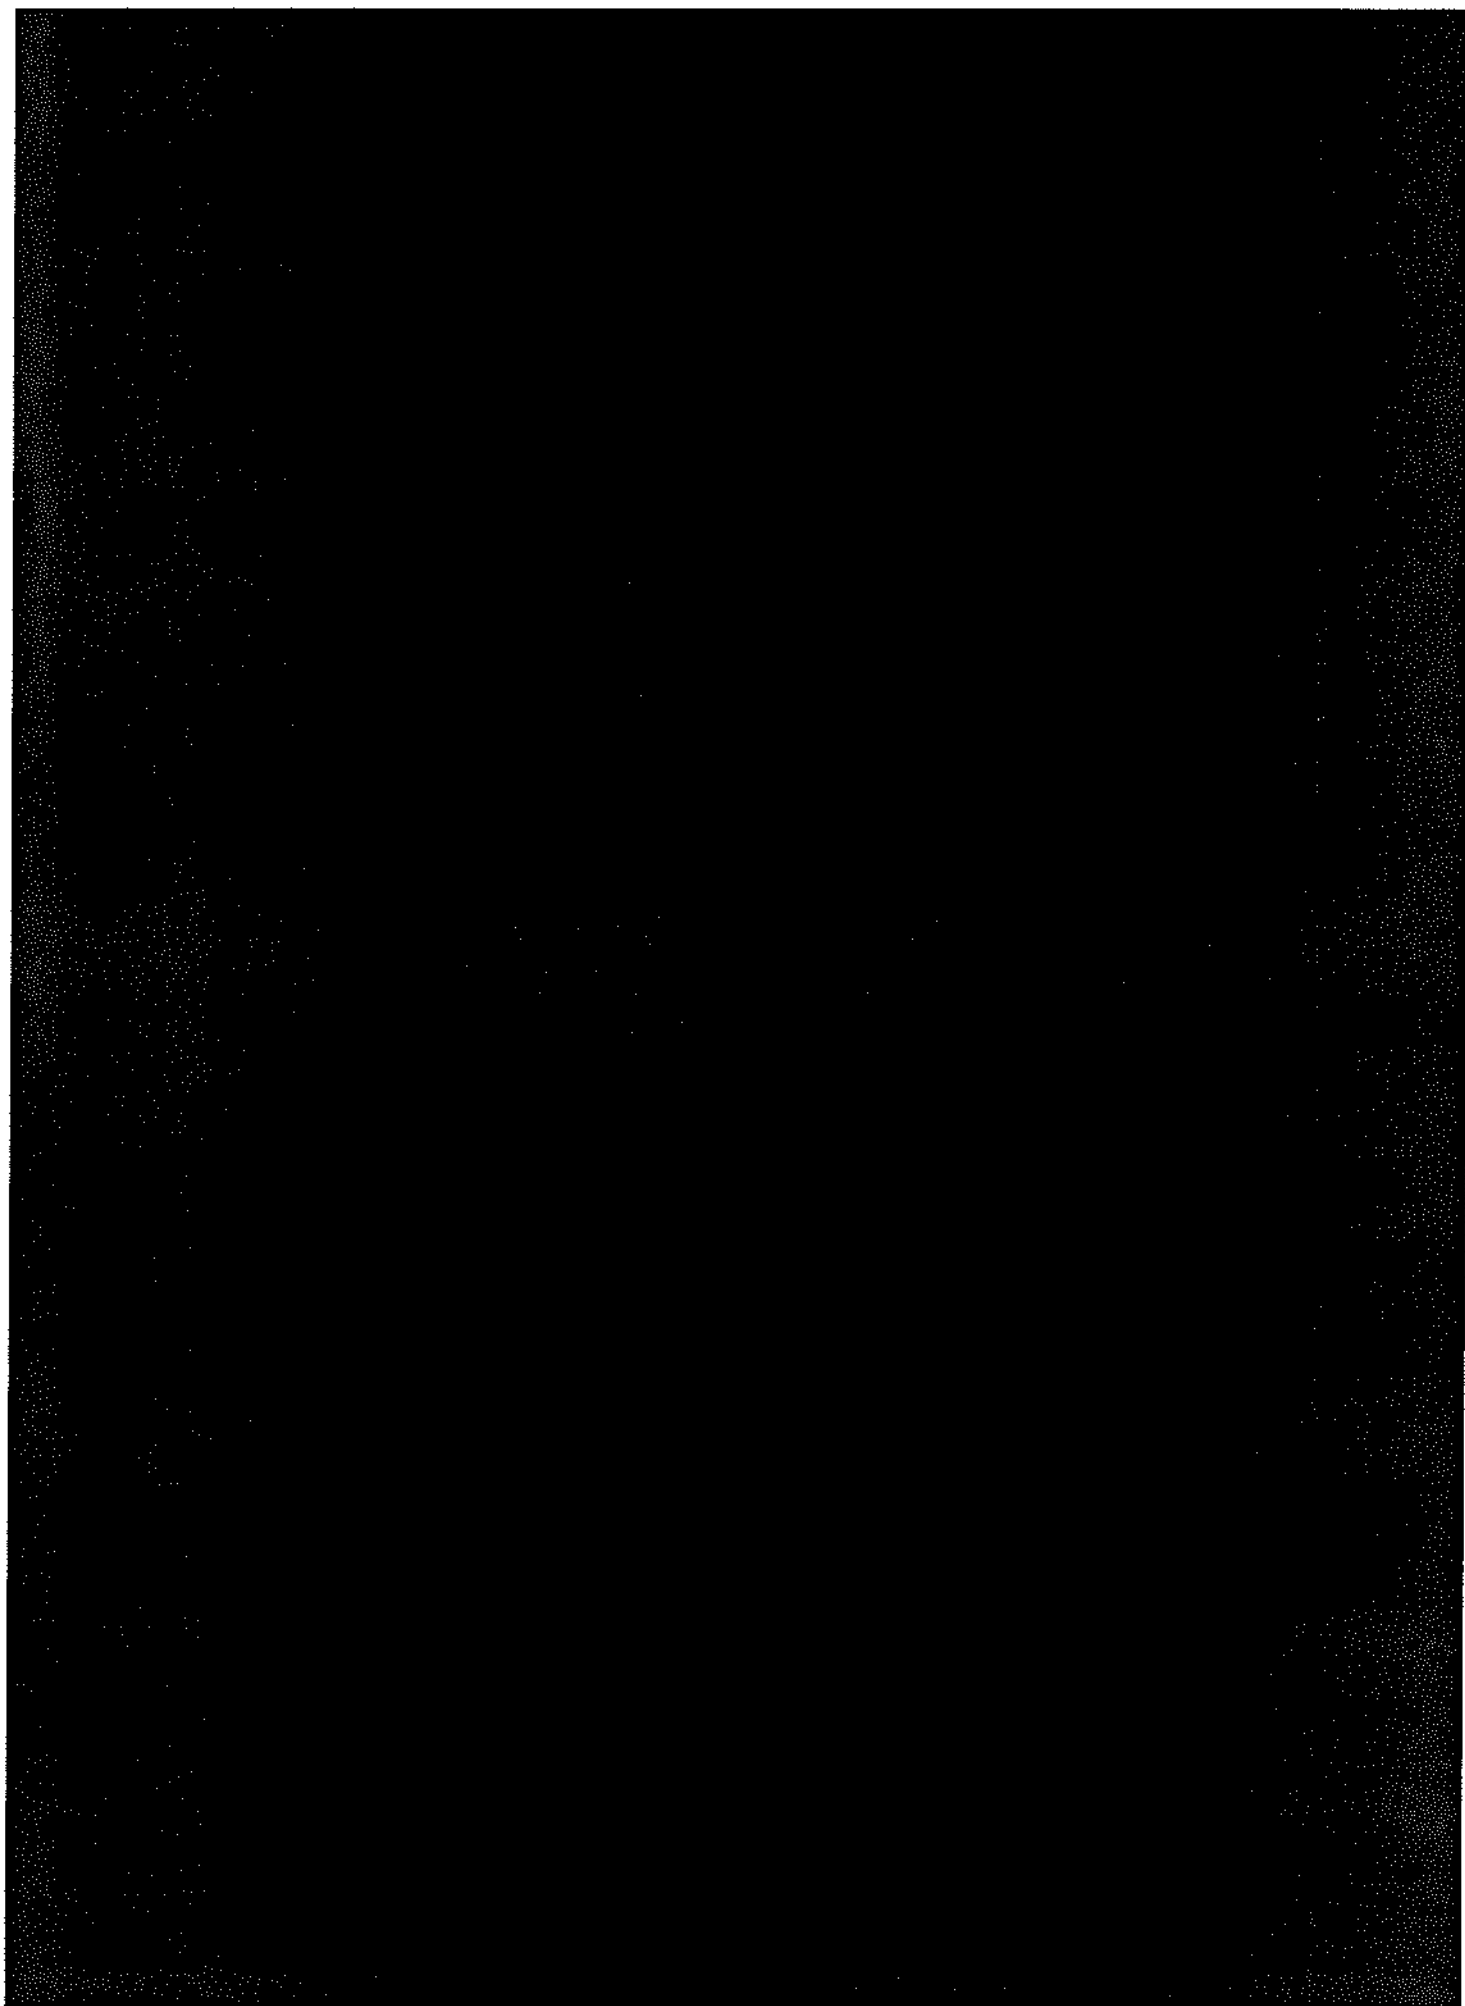

Given the current workload on the members within this Division dealing with matters related to the work of a Protective Services Unit I believe I am well justified in outlining the need for such a Unit in this Division.

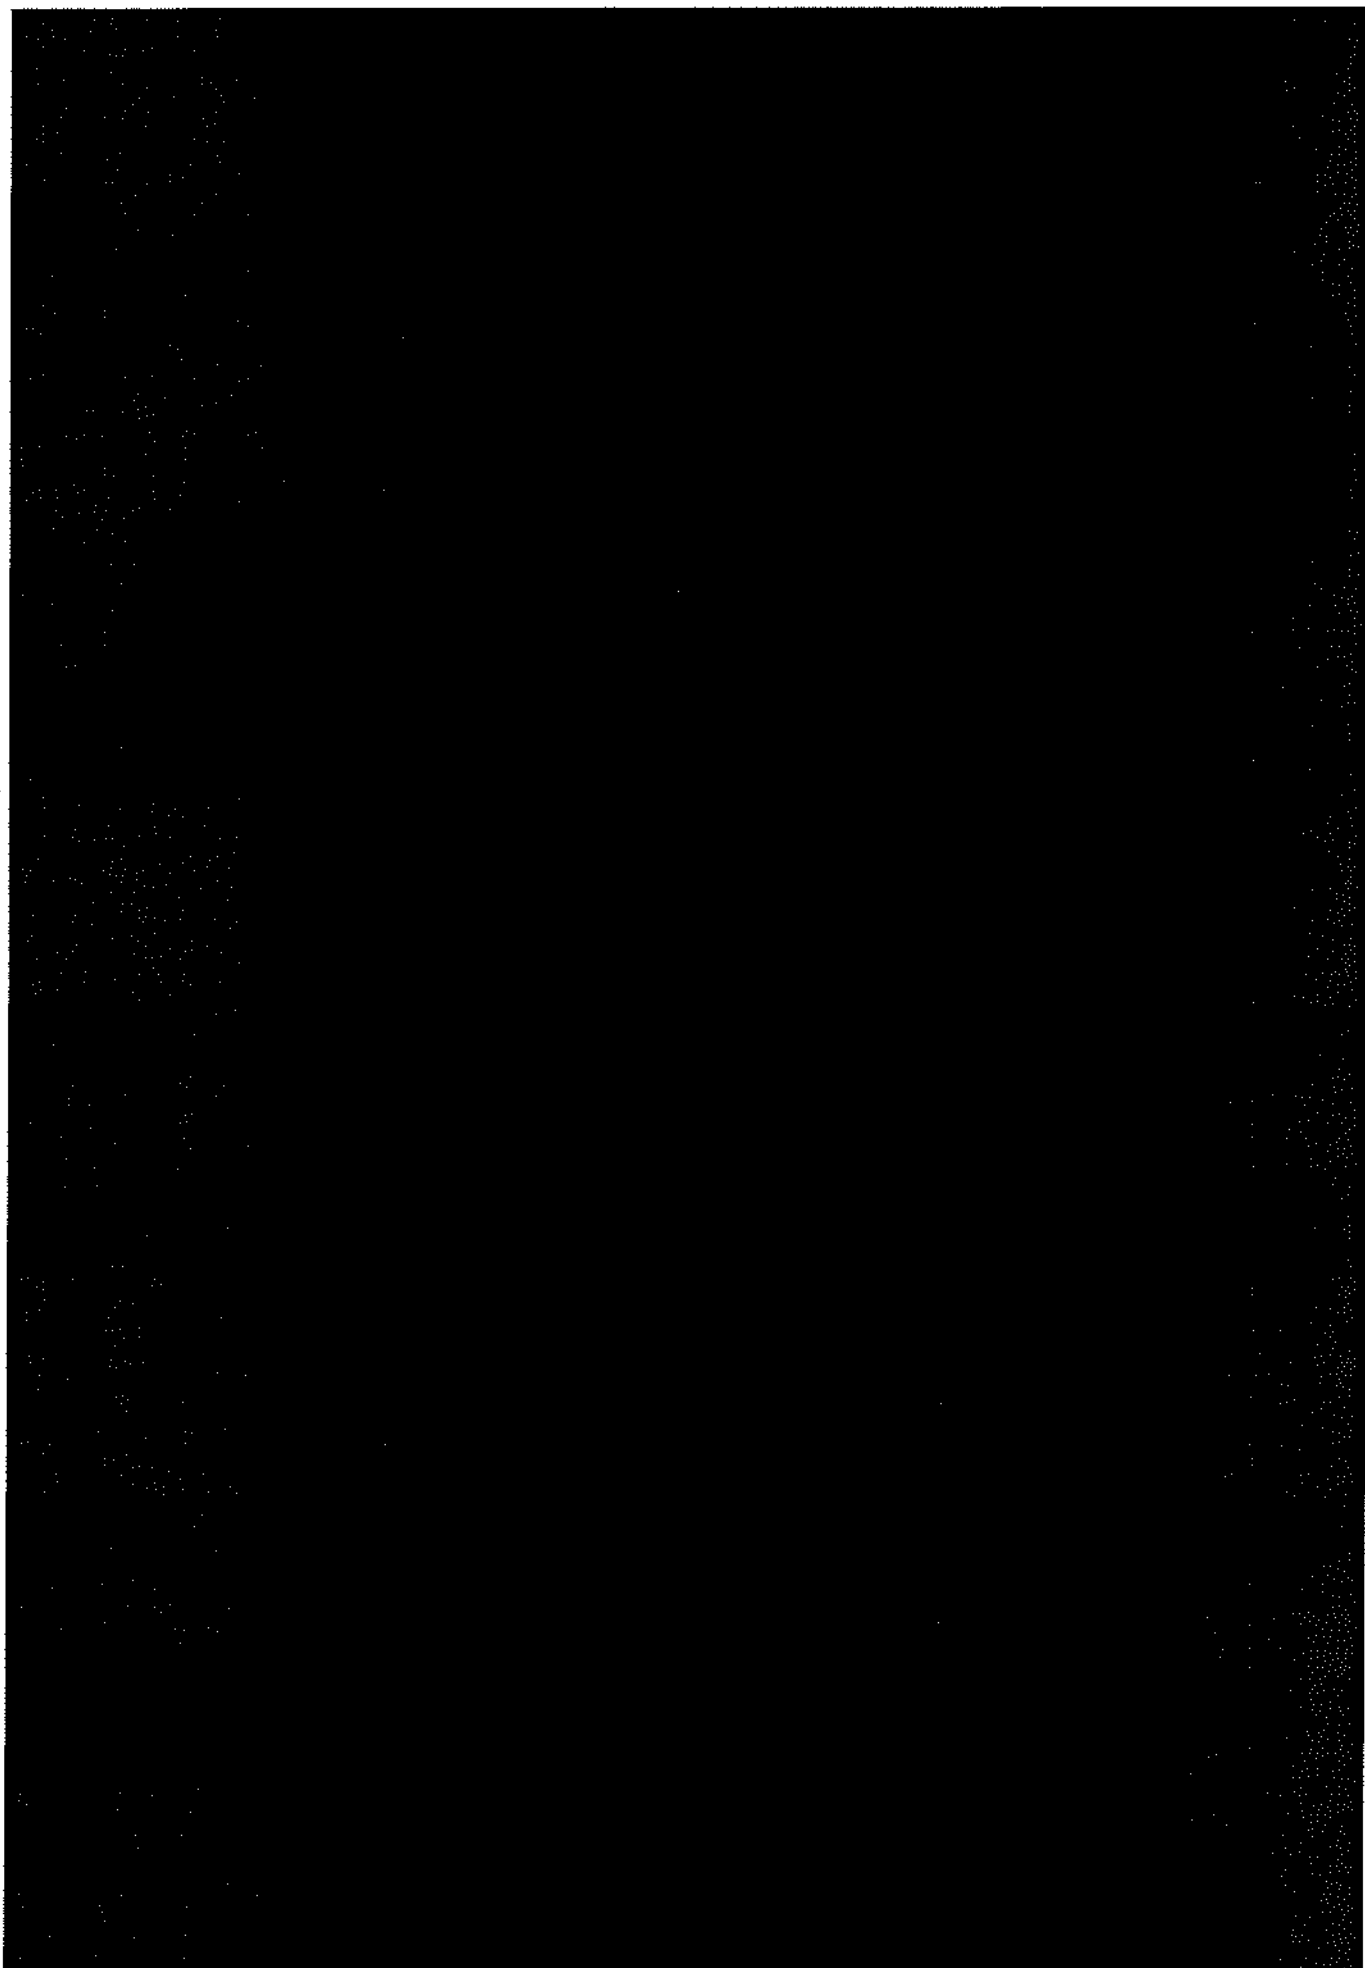

In order to give an overview of the anticipated workload of a Protected Services Unit for the Cork West Division I have examined the incidents relative to each of the above items for the period 2011-2017 year to date.

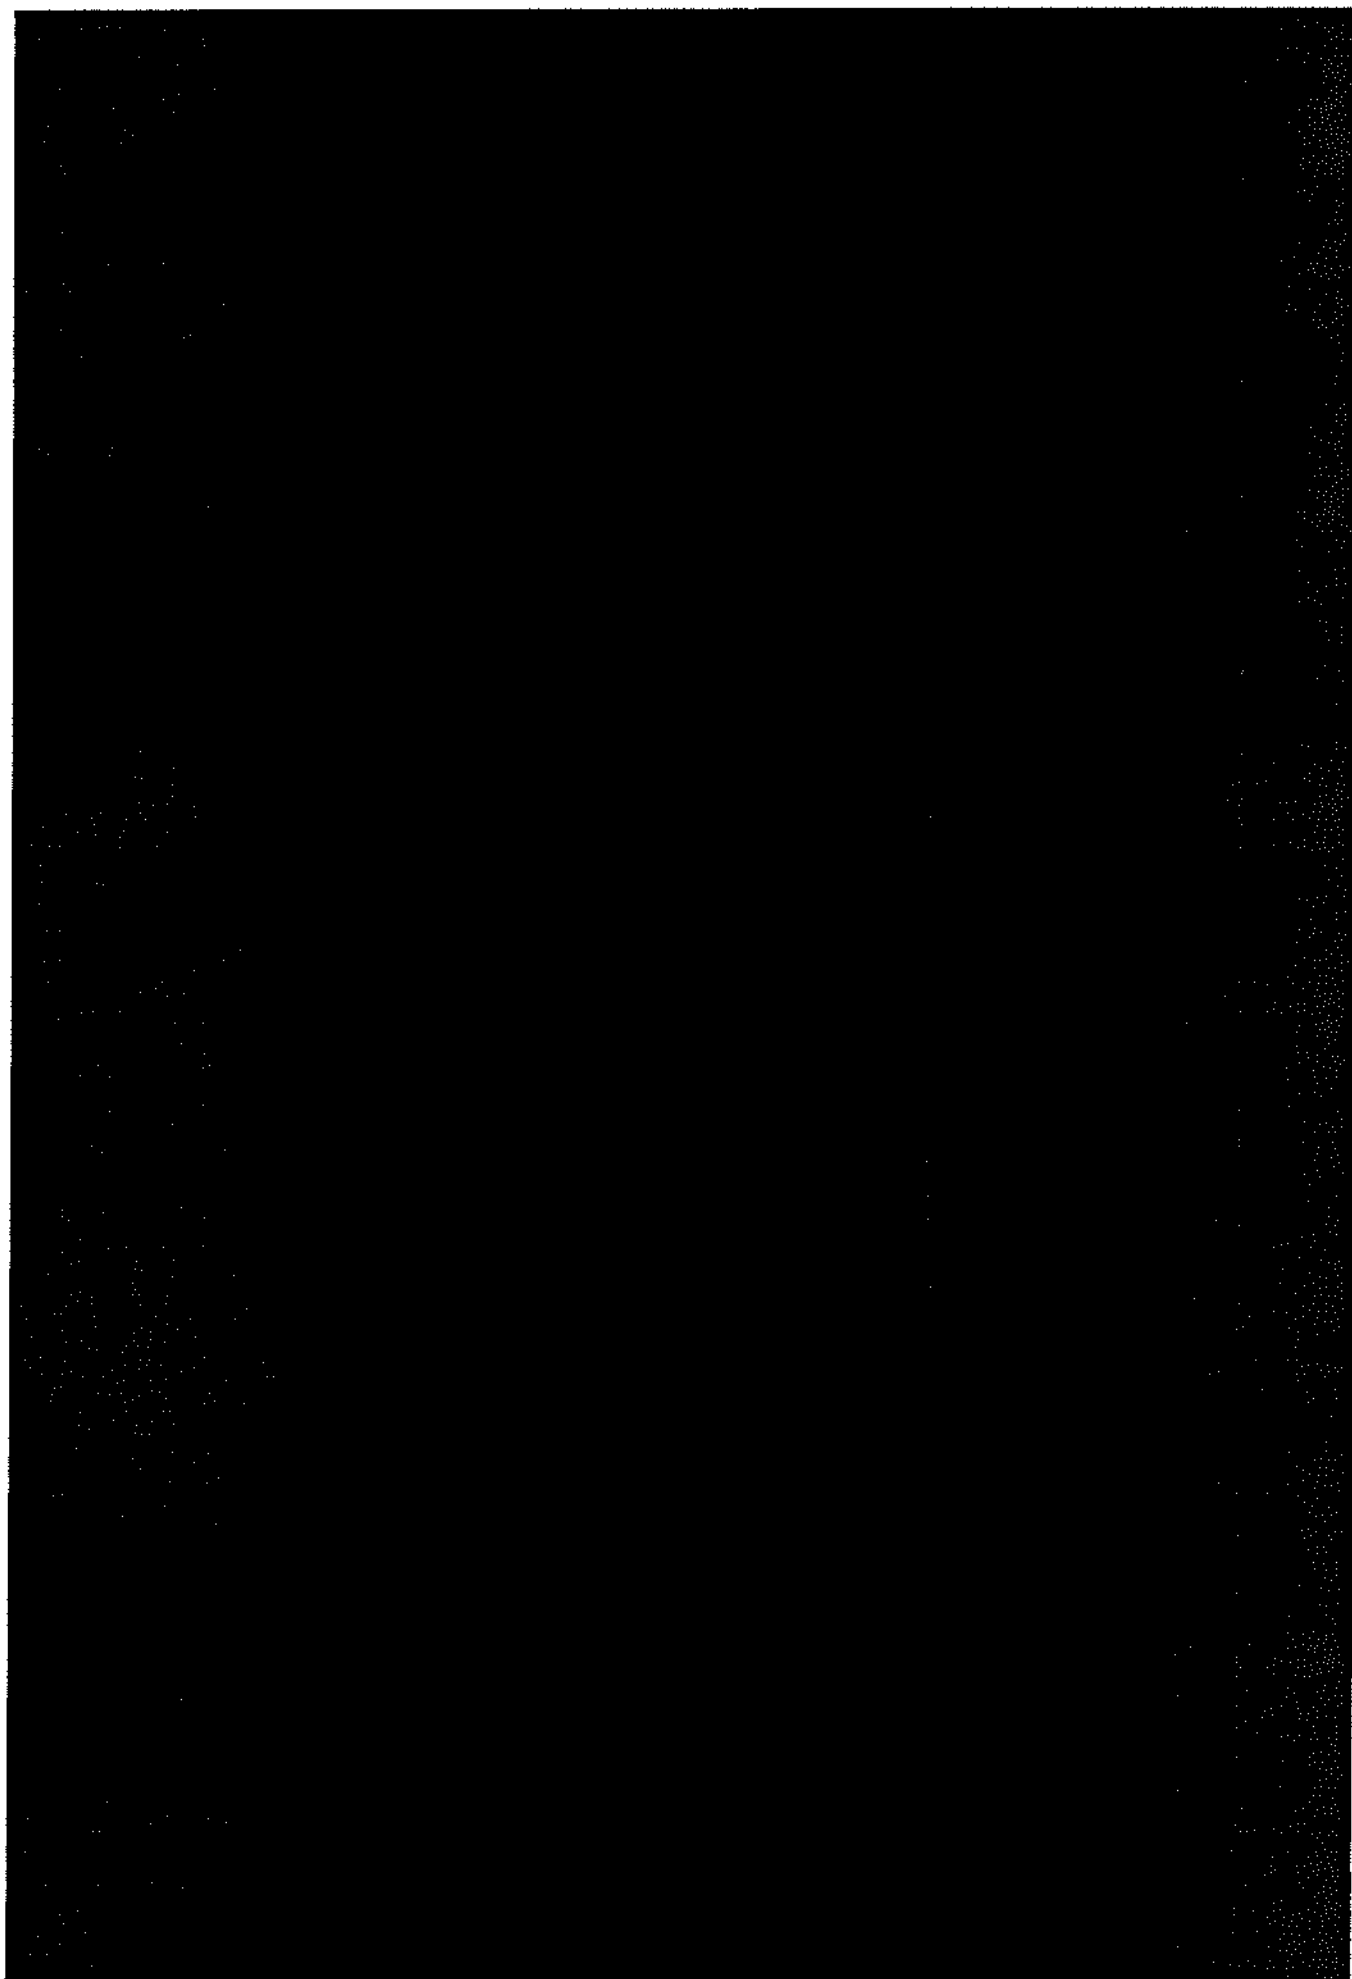

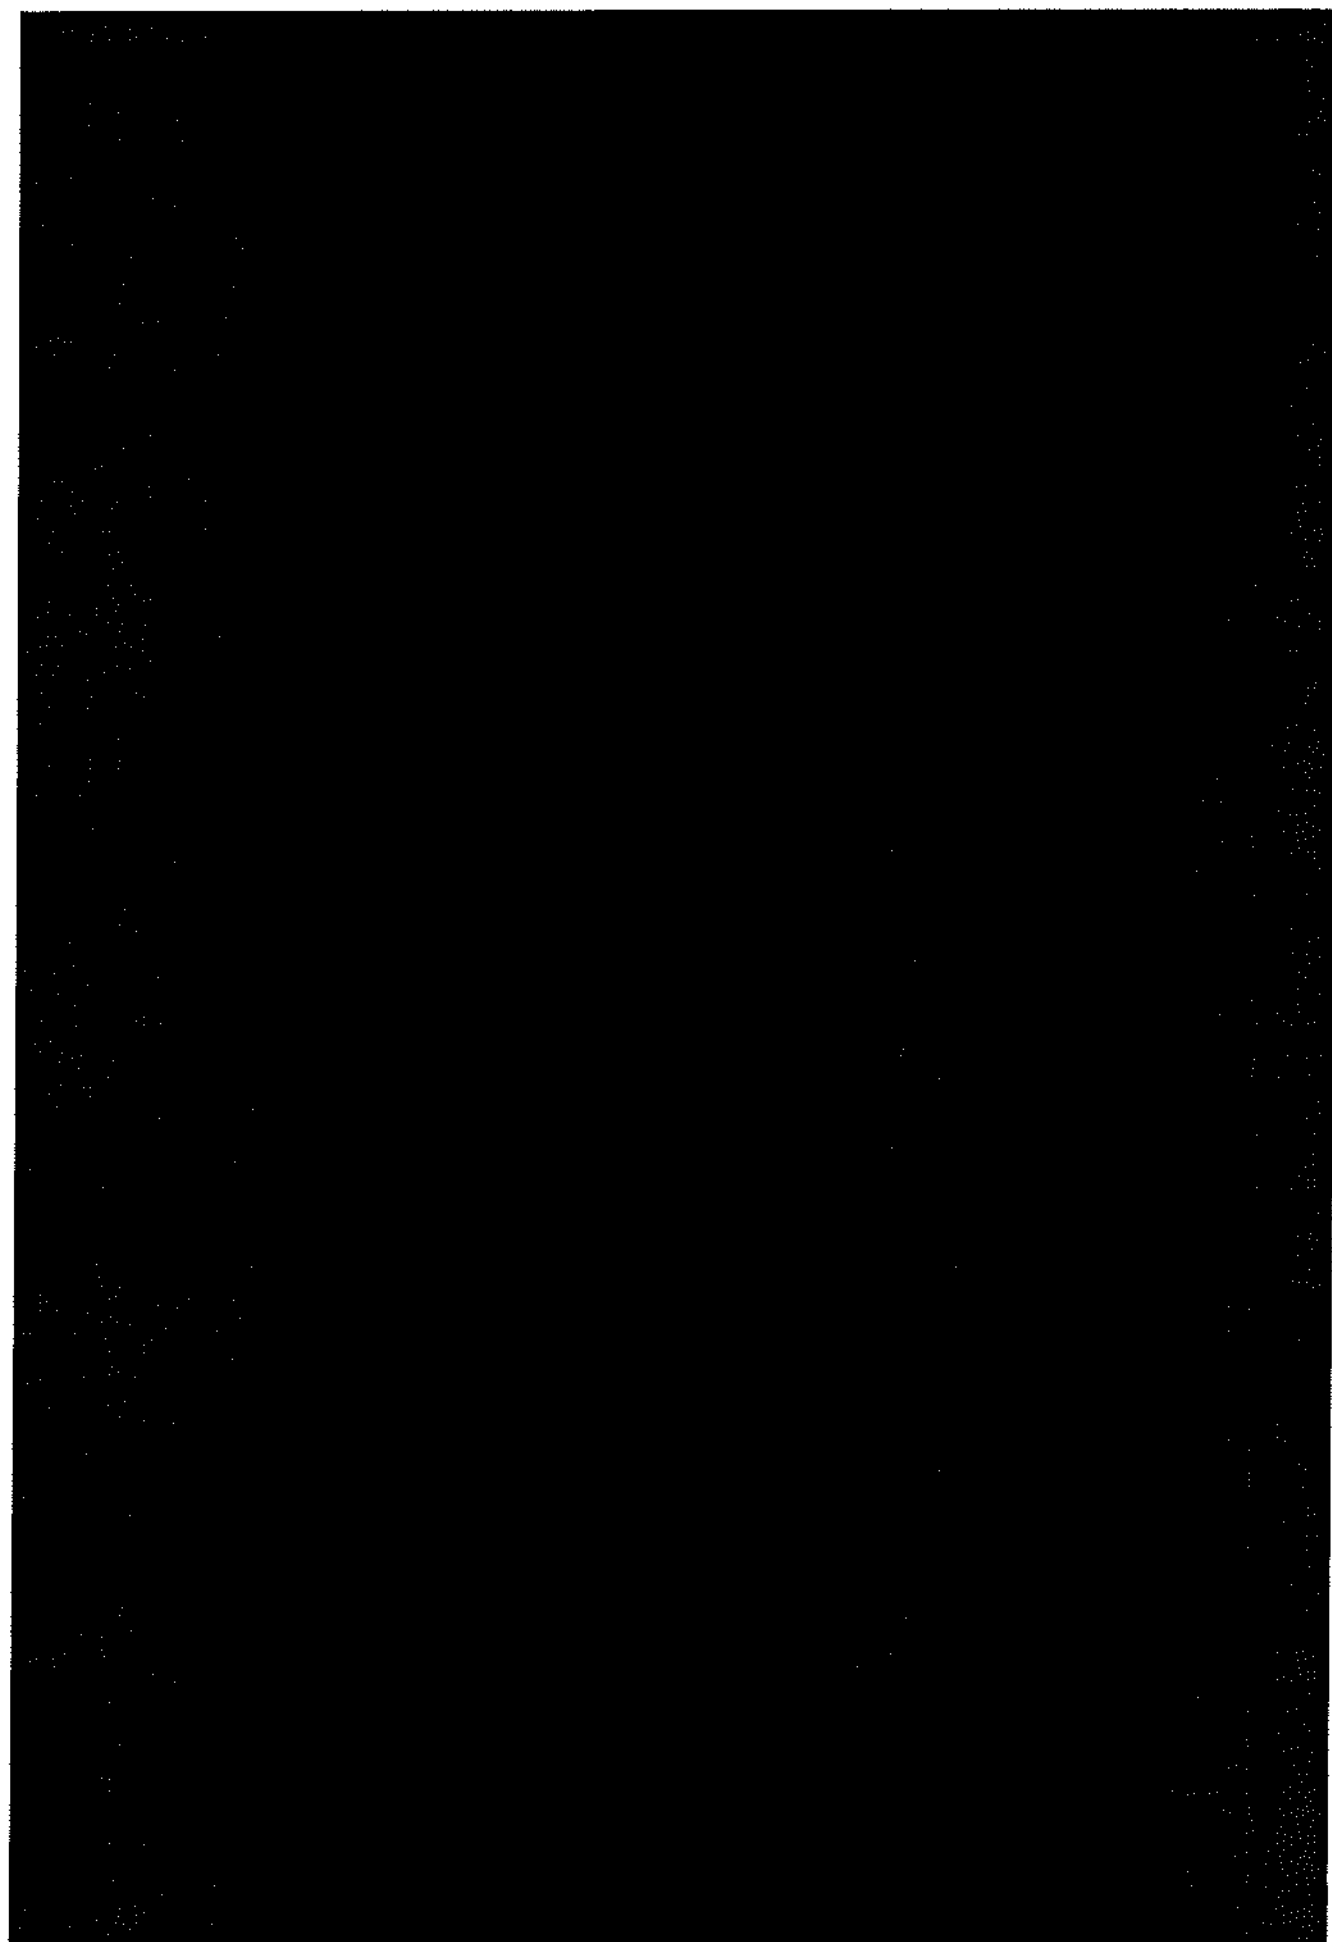

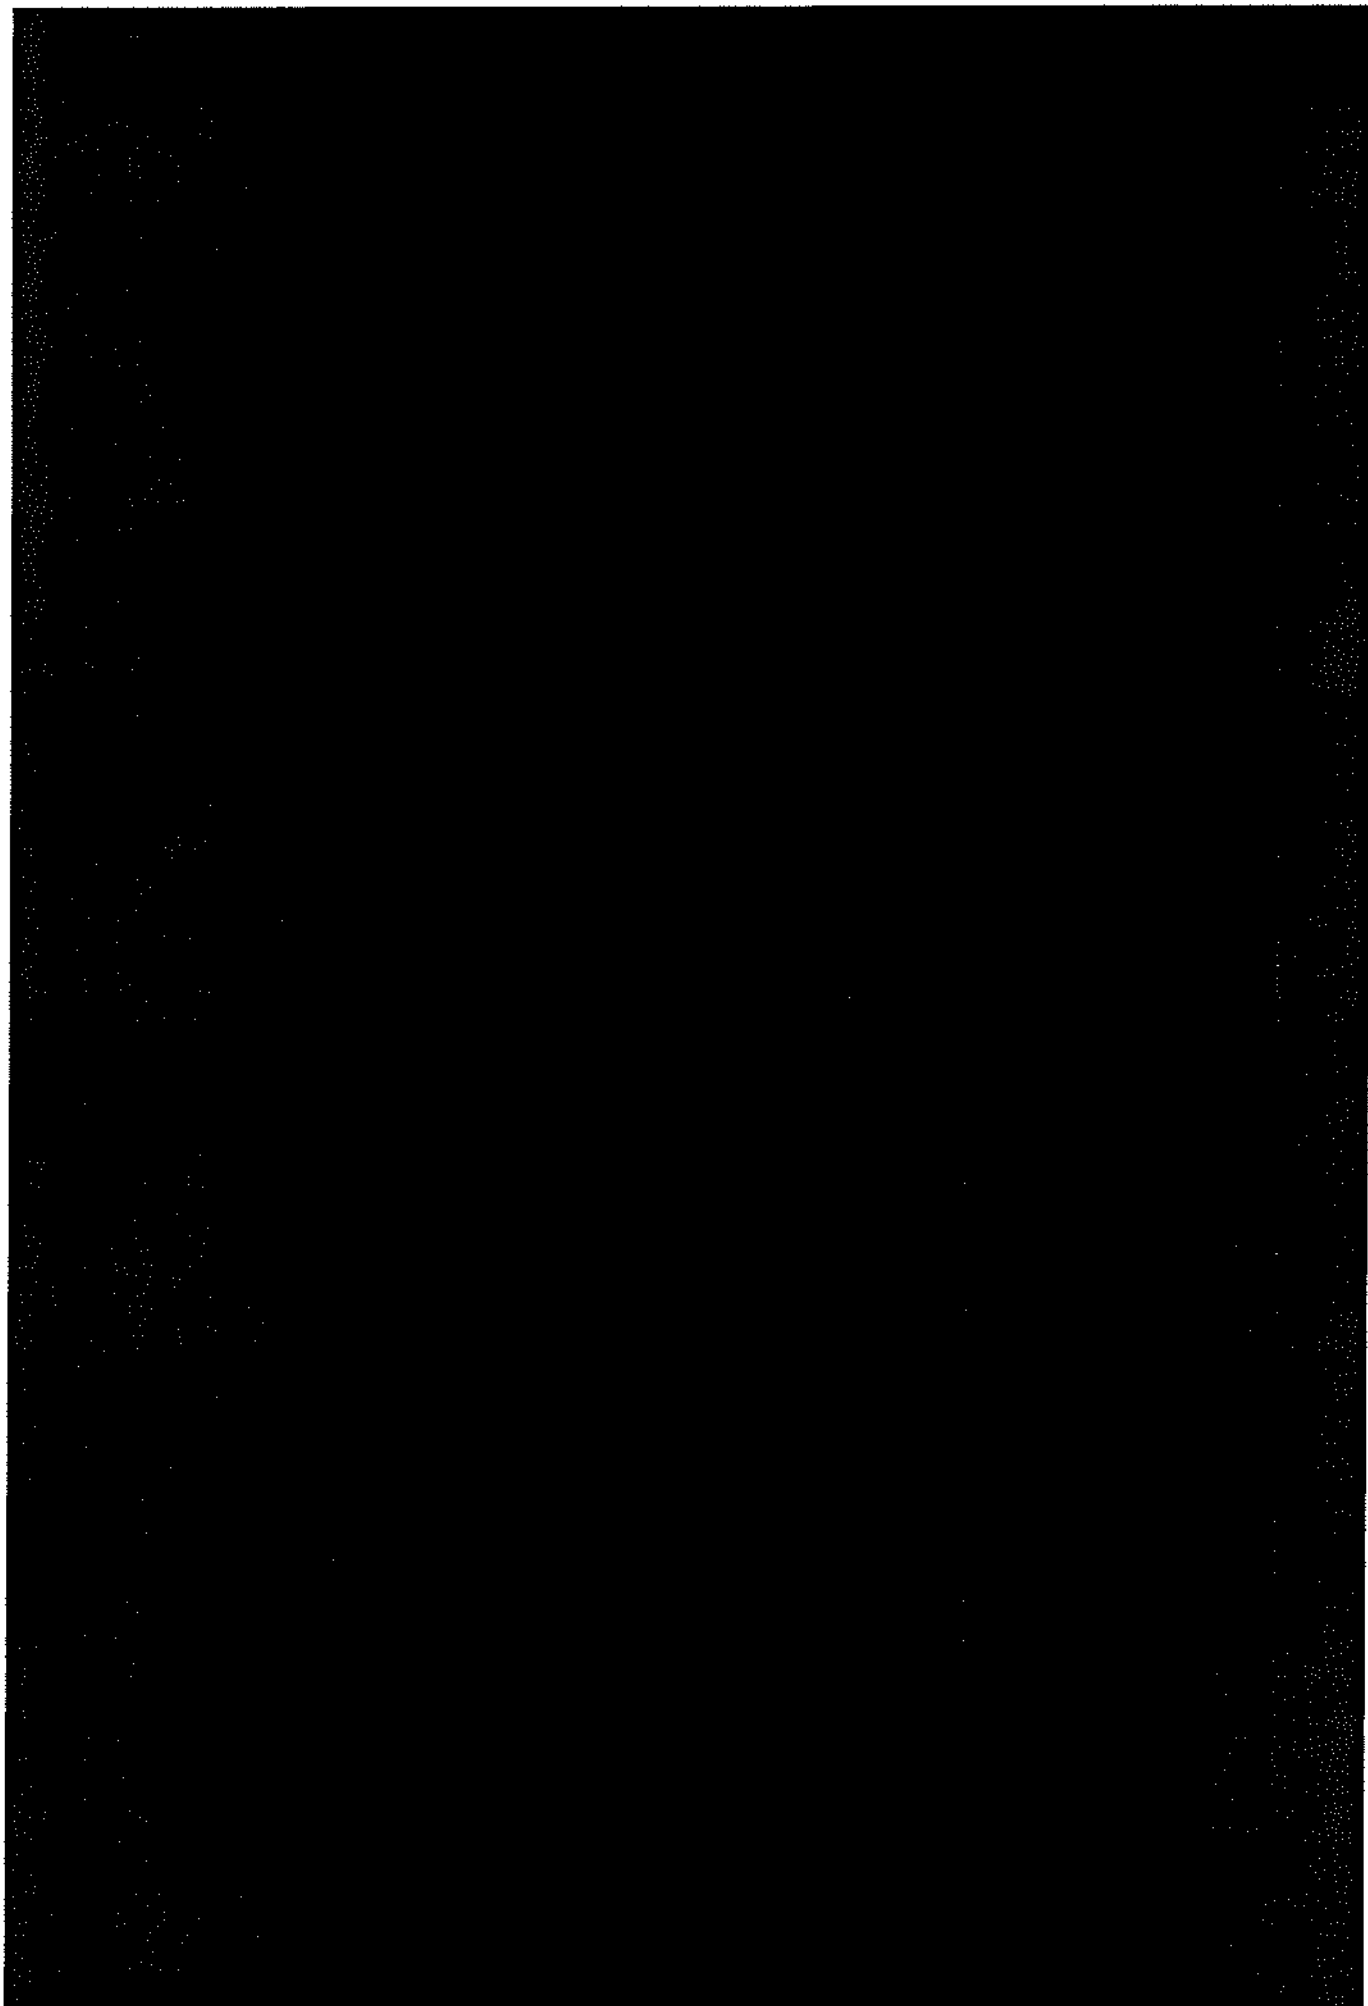

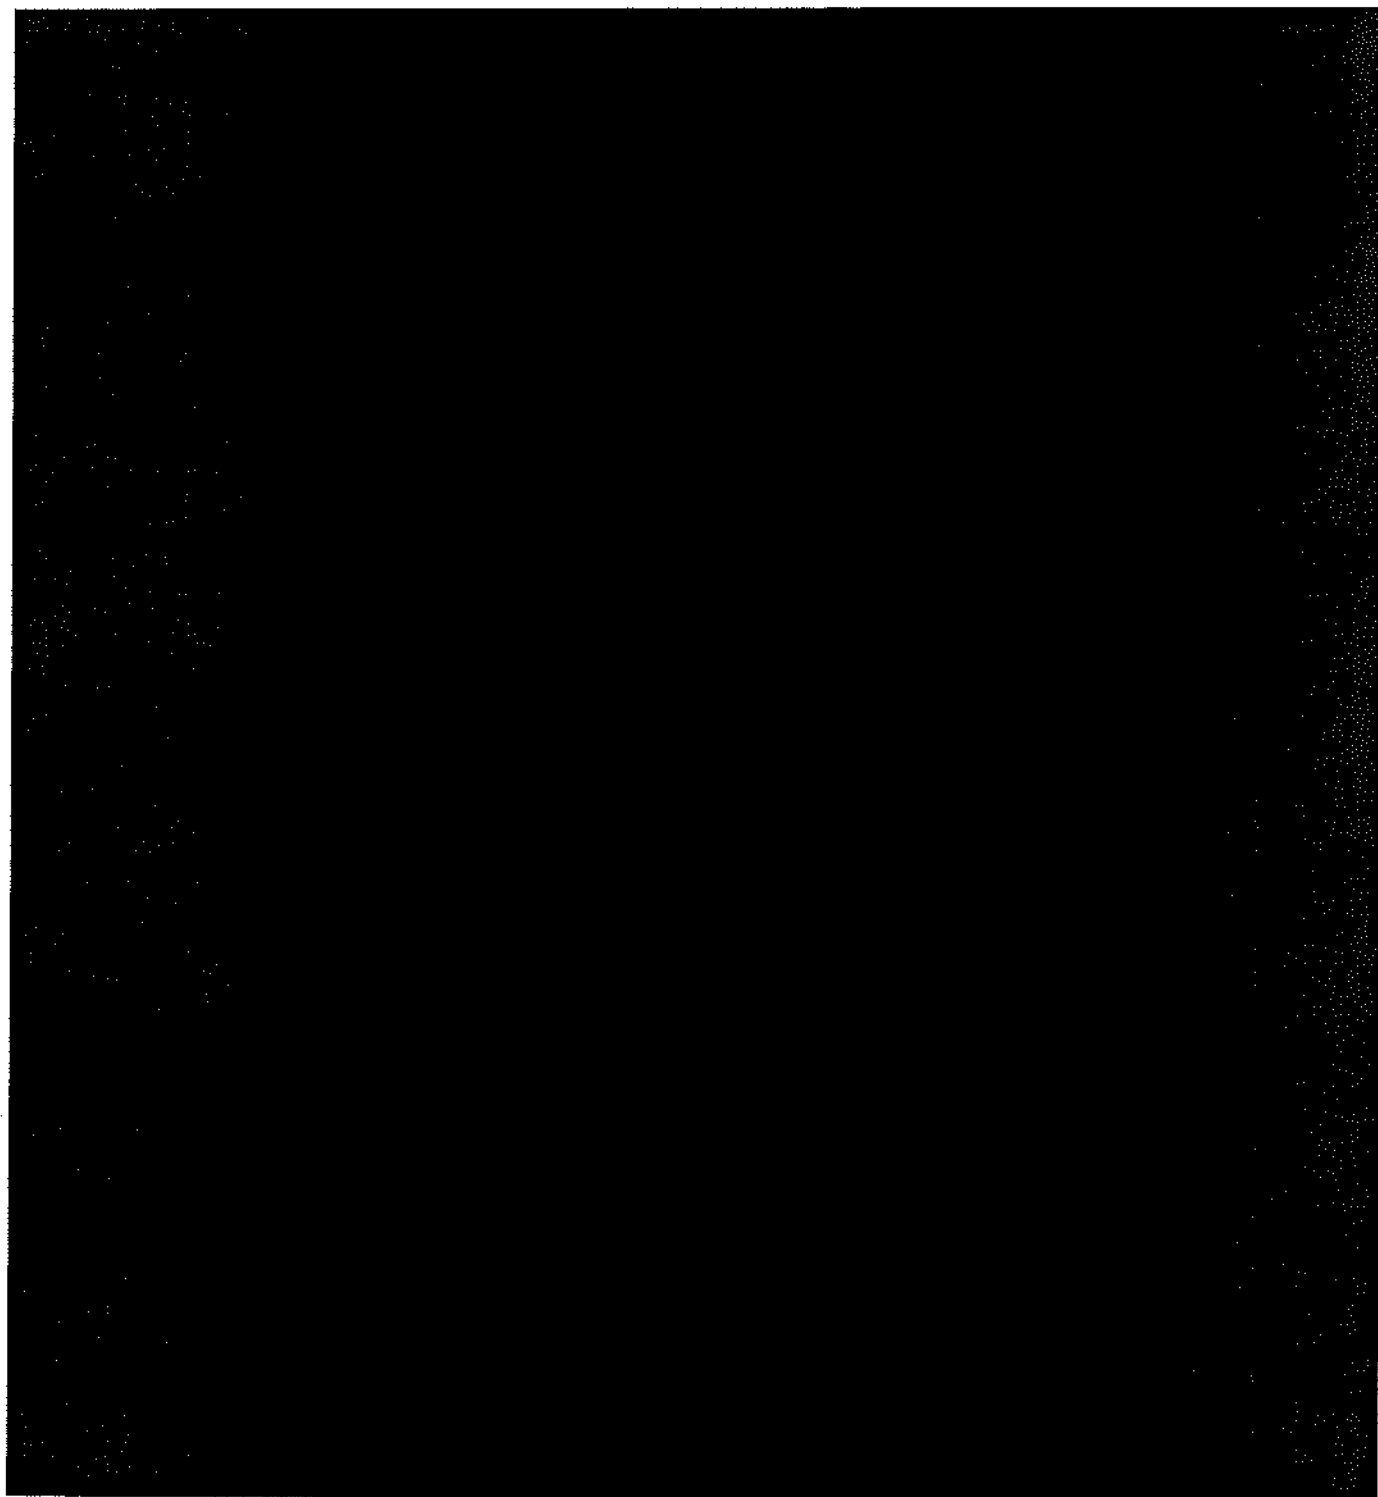

**Resourcing Requirements for Divisional PSU**

I would recommend that to effectively investigate and manage all relevant issues under the remit of the PSU they following staffing requirements would be required;

1 Sgt  
 6 Gardai  
 1 Clerical Officer

Due to the Divisional Portfolio of the Unit I believe 4 Unmarked Official Vehicles would be required.

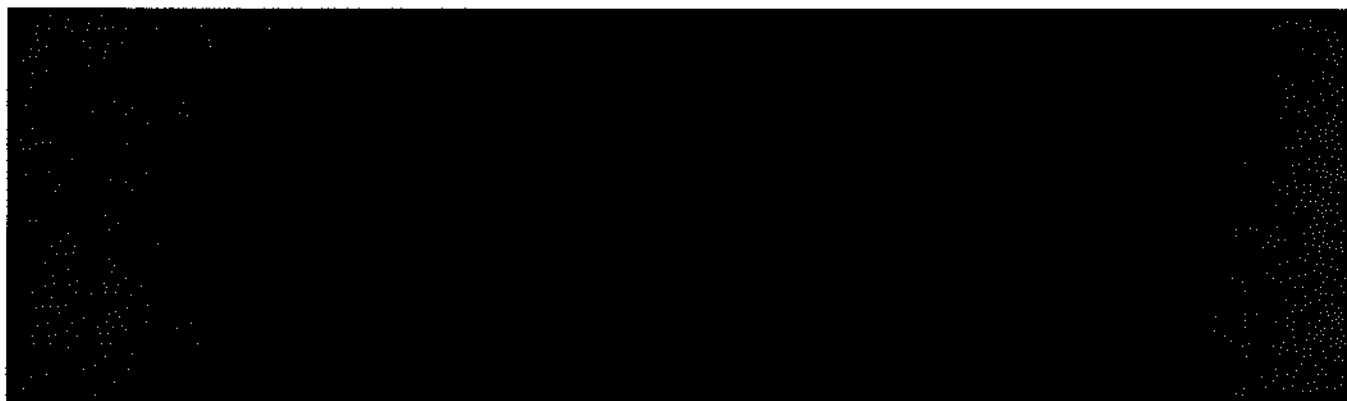

### Training Requirements

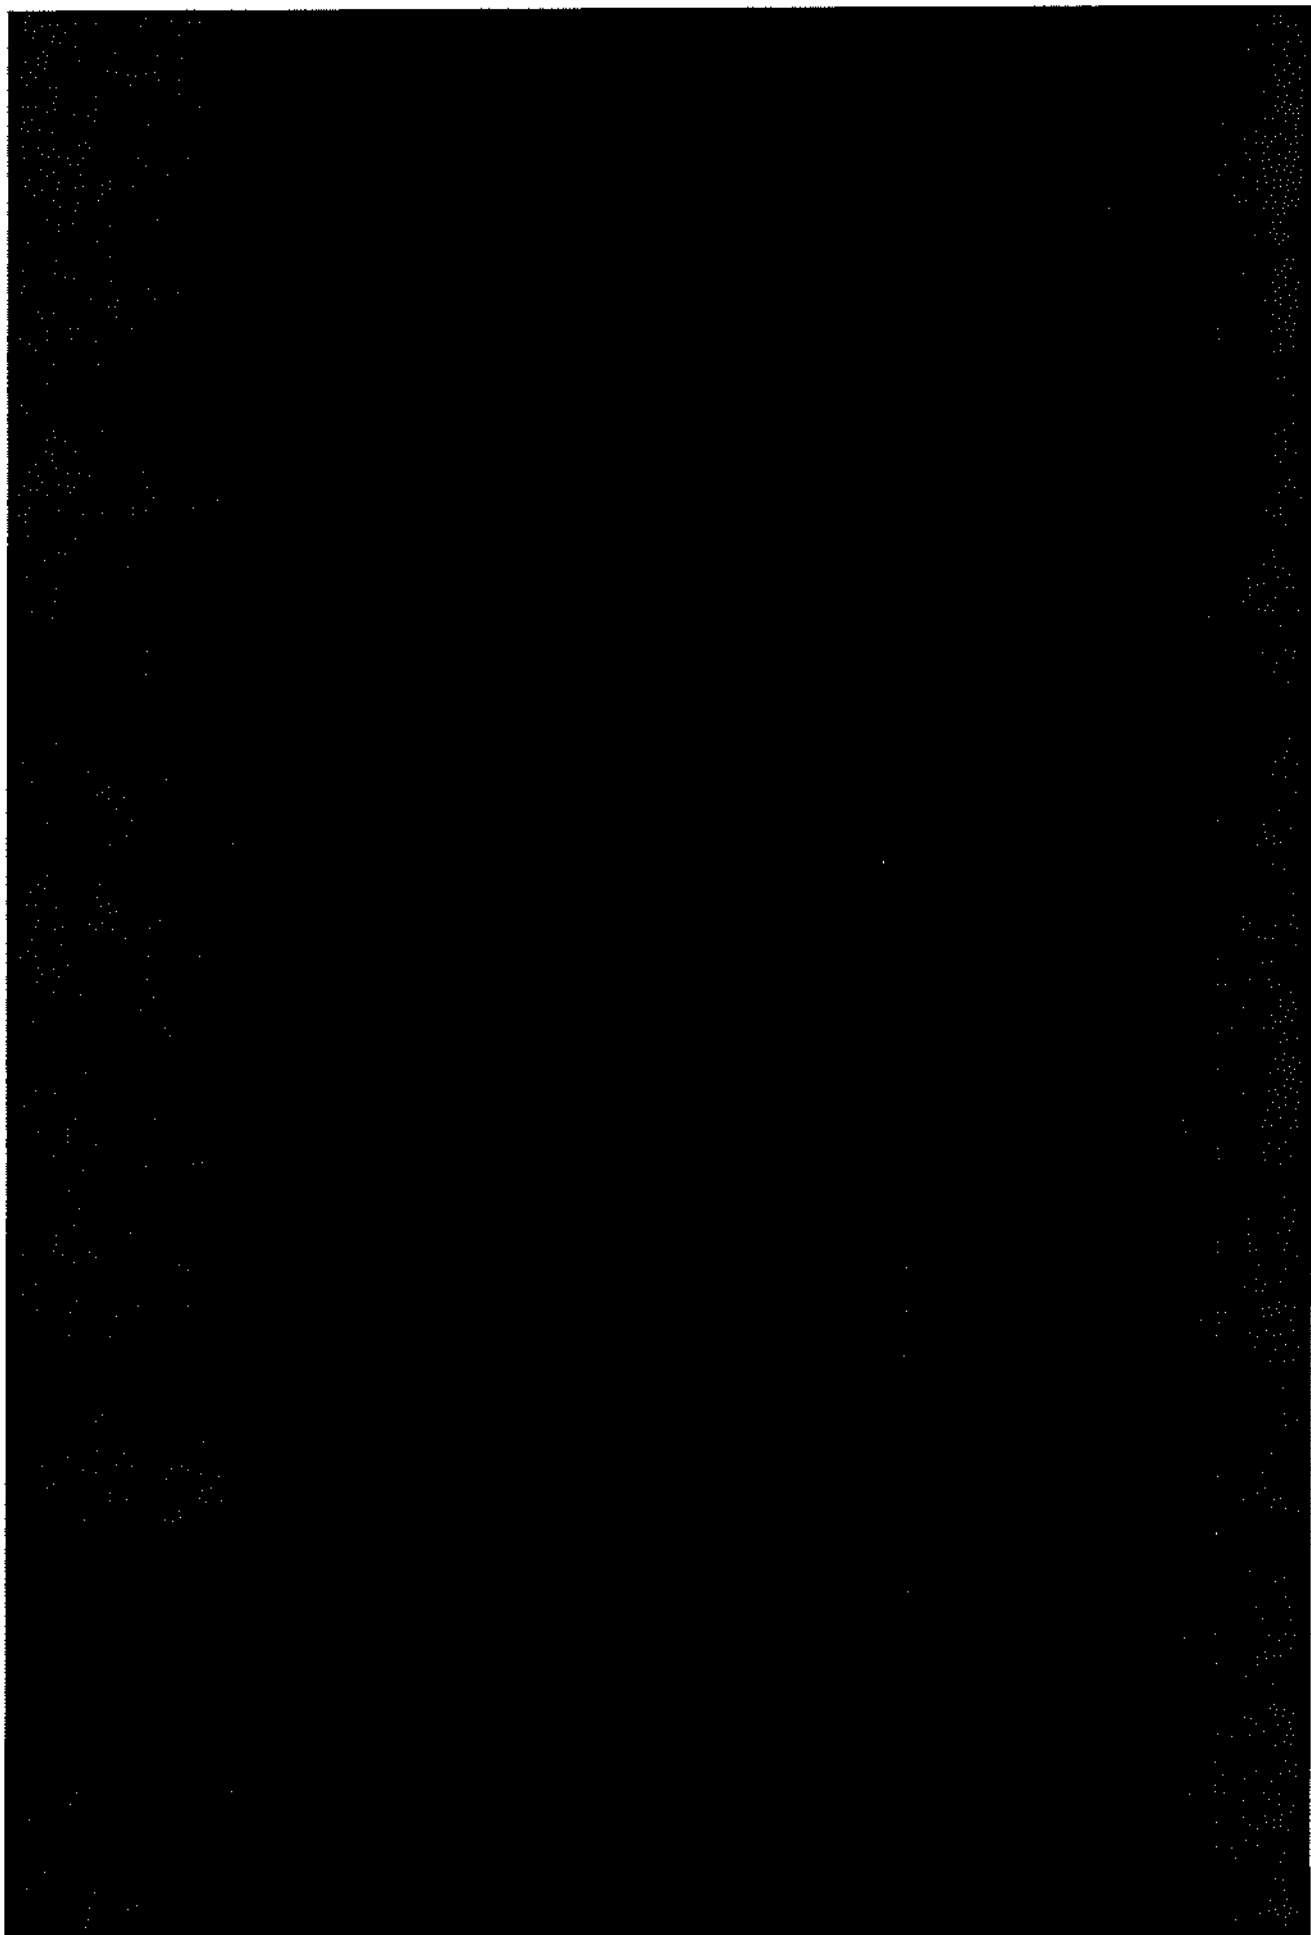

It is anticipated that those members selected for permanent attachment to the PSU will receive broad awareness training in respect of all aspects under the responsibility of the Unit from staff attached to the National Protective Services Unit. However specialised training may be required in the following areas dependent on the members selected;

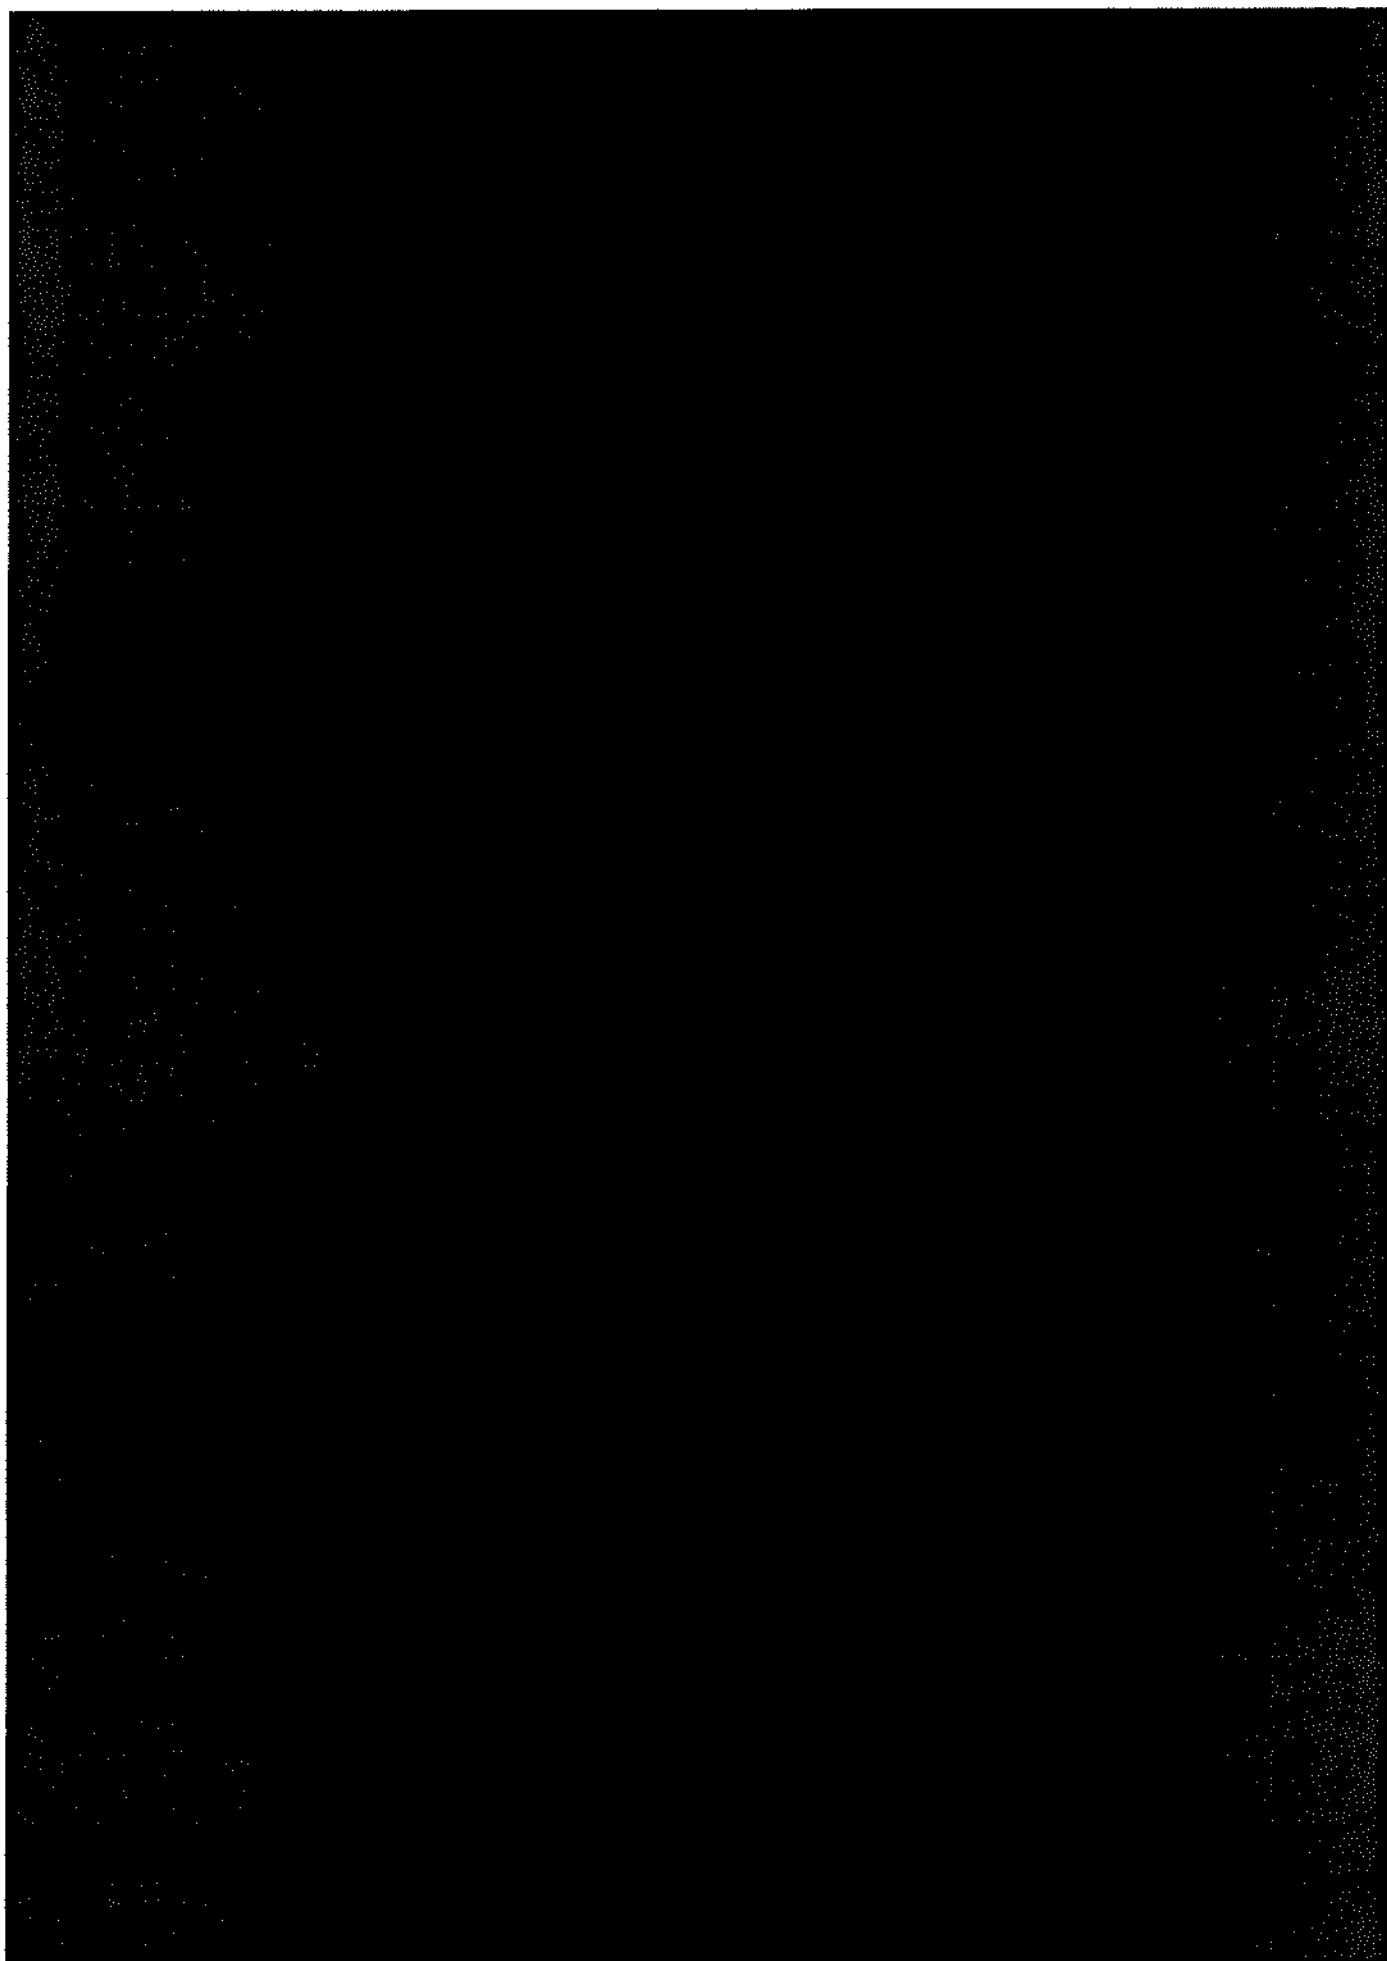

- Interview Training (*Desired Minimum of Level 3*) \*
- Children First Training\*
- Sex Offender Management (*Desired Minimum Risk Matrix 2000 and/or Stable & Acute*)\*\*
- *Specialist Child Interviewer Training* \*\*
- Human Trafficking\*\*
- Missing Persons\*\*
- XRY Telephone Analysis\*\*

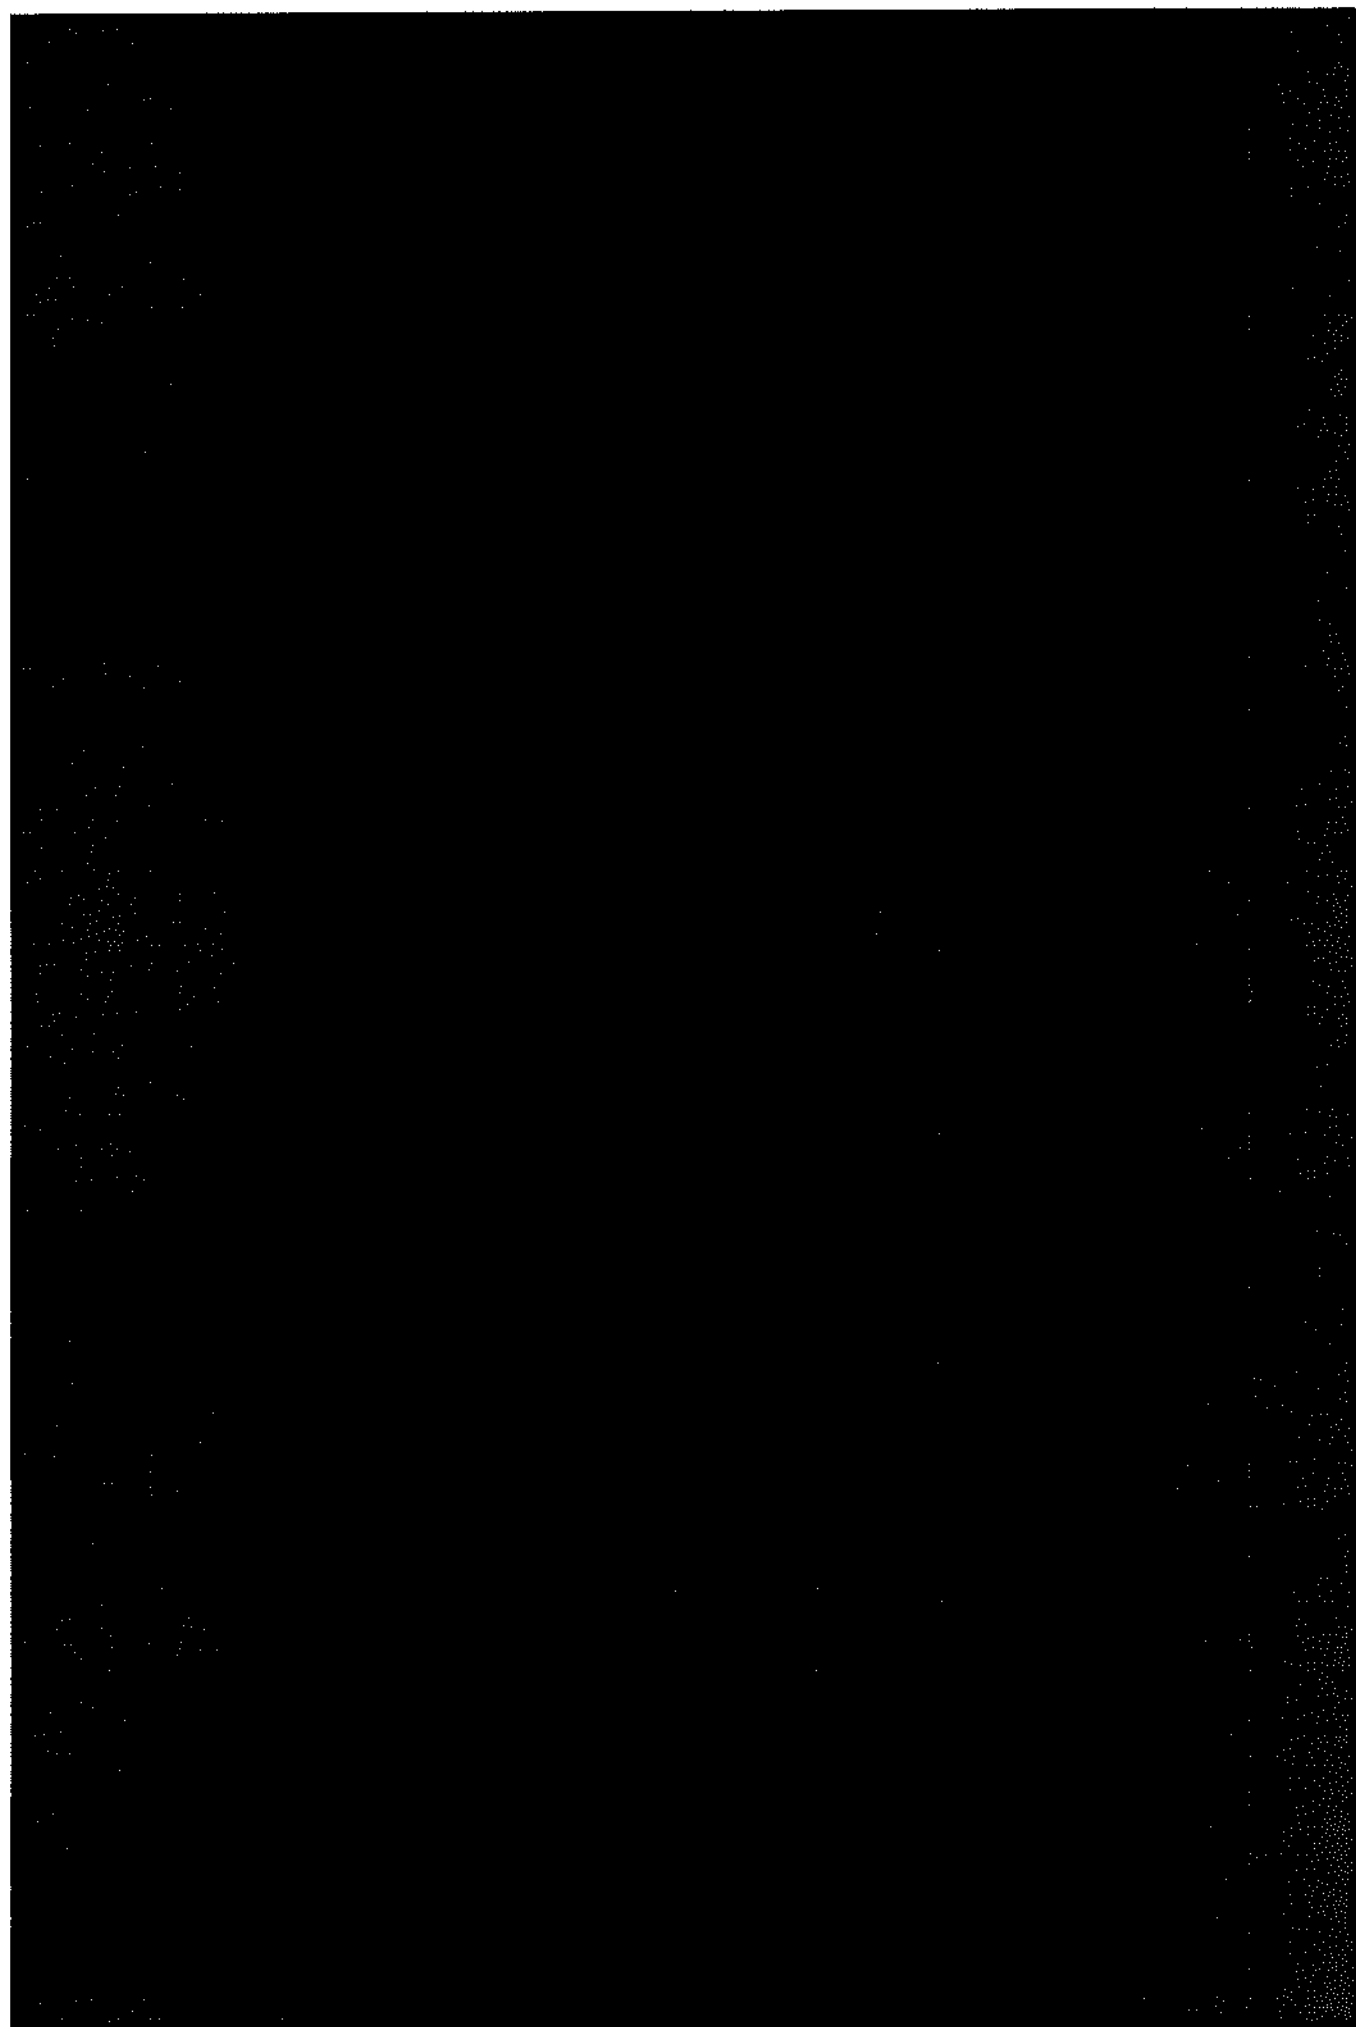

*\*All members should receive training.*

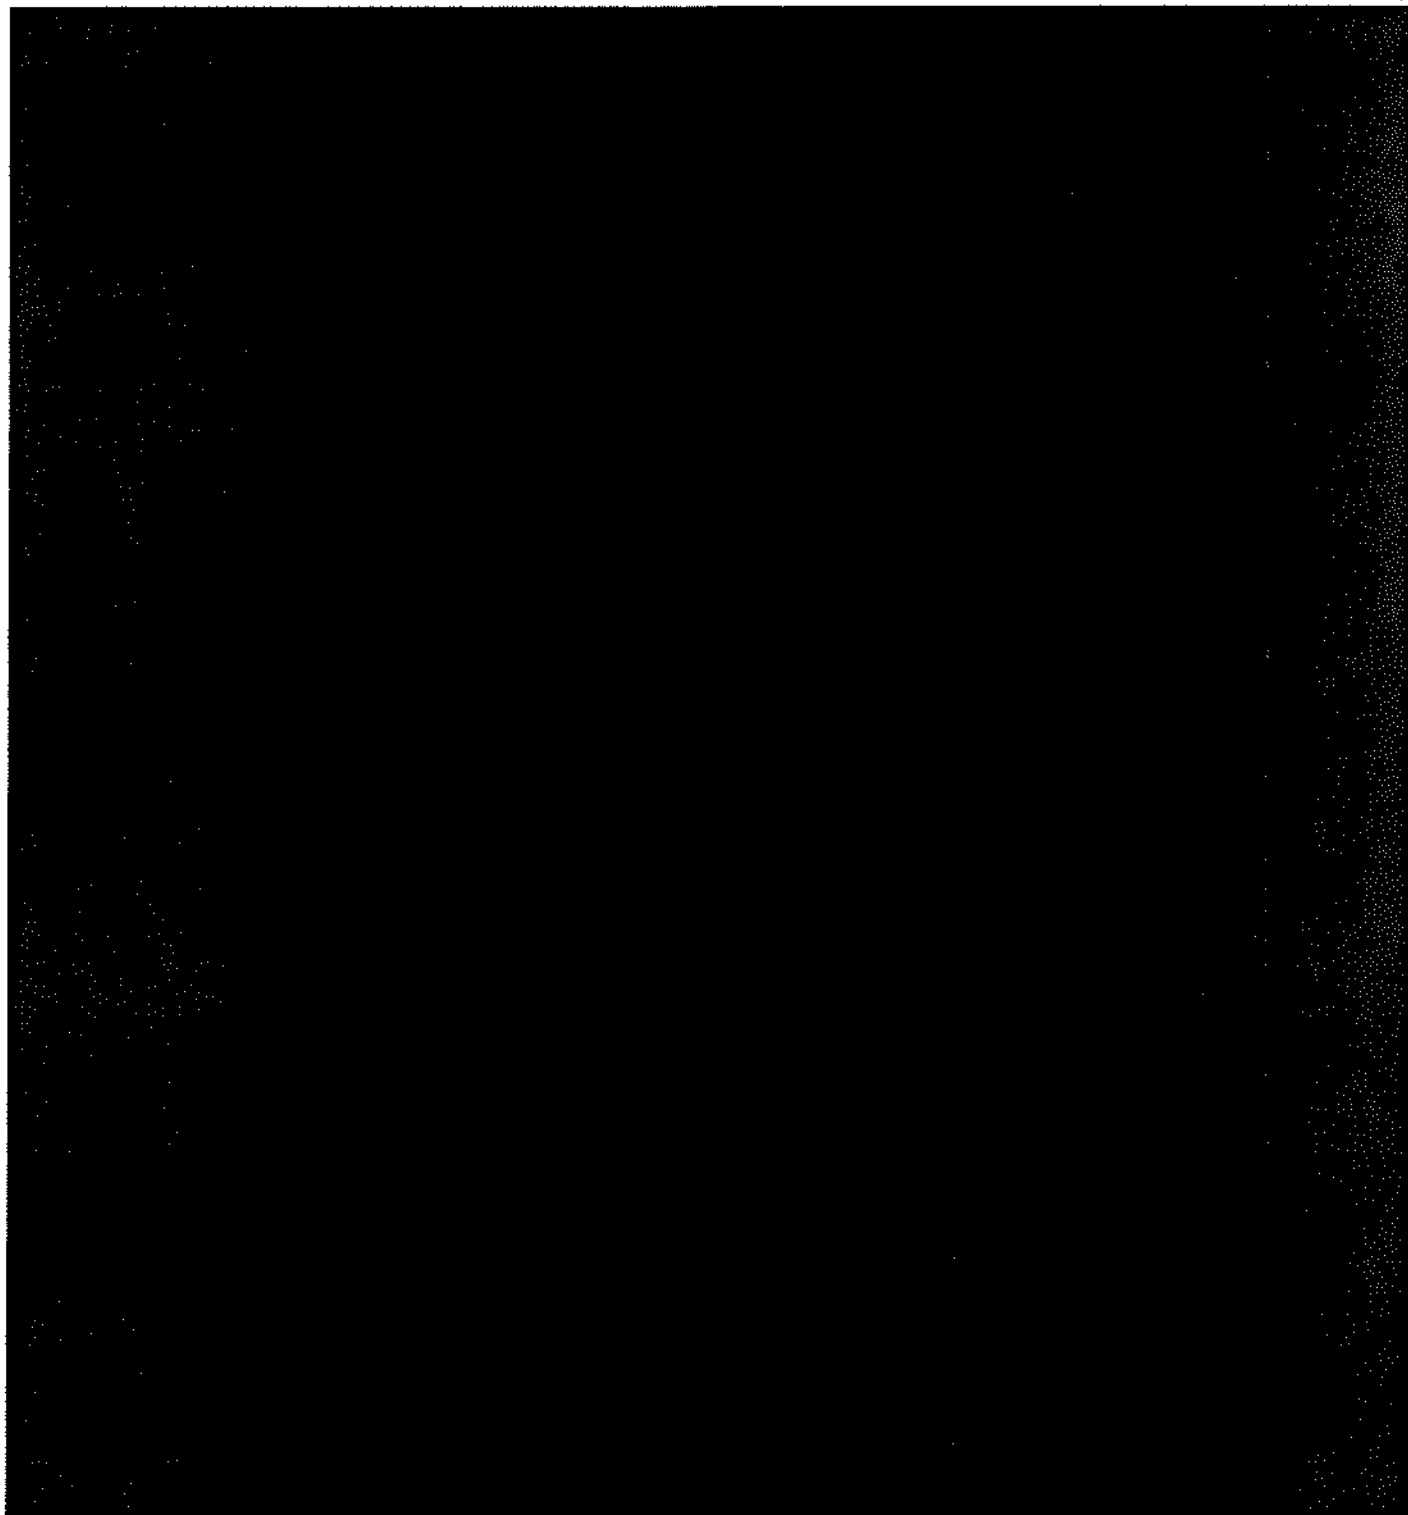

*\*\* Selected Members Should Receive Training.*

I refer to the above and further to your email in this matter.

A meeting was recently chaired by the Strategic Transformation Office with regard to the roll-out of Phase 2 of the Divisional Protective Services Units. Human Resource Management and the Garda National Protective Services Bureau were in attendance with various other stakeholders such as Telecoms and Estate Management. The Strategic Transformation Office is currently in the process of finalising the list of Divisions suitable for the Phase 2 roll-out.

Therefore, this office is not in a position to approve any divisional competition for the Protective Services Unit until confirmation of the proposed Divisions is received from the Strategic Transformation Office.
